Description

This document is circulated for review and consideration at the May 2023 JTC 1 Plenary in Italy.

US National Body Contribution in Response to JTC 1 N 16195 - ITTF Proposed SD 15 Based on SD 15 Fifth Edition 2021 Taking into Consideration Input from AhG 4
Revised SD 15 08_09_2022 (004)-ADR-R2

The US National Body has reviewed the comments that ITTF has made on JTC 1 SD15 located in JTC 1 N16195. Overall, the US believes that the comments and changes that ITTF has provided to improve JTC 1 SD15 and include the additional information on collaboration and coordination are good proposals. The US believes that the title of SD15 needs to include the reference to liaisons. The US National Body proposes that the title should be “Cooperation and Collaboration with other committees and organizations (including Liaisons)”. Including a reference to liaison in the title is important since a very large portion of the document is about describing liaison roles and the operational aspects of liaisons. Those unfamiliar with liaisons may not realize that they are a part of cooperation and collaboration and when looking at the Standing Documents may glance over this without “Liaison” in the title. All other comments suggested by the ITTF should be accepted and are supported by the US National Body.
