7 March 2024

**Subject: Invitation to Information Session on “Healthy Aging in Thailand through ICT”, 1 April 2024,
ITU Regional Office for Asia and the Pacific, Bangkok, Thailand**

Dear Sir/Madam,

The International Telecommunication Union (ITU), in collaboration with the Ministry of Digital Economy and Society (MDES), has the honor to invite you to attend an information session on “Healthy Aging in Thailand through ICT” on 1 April 2024 at the ITU Regional Office for Asia and the Pacific, Bangkok, Thailand. This event is organised in collaboration with Juntendo University of Japan and World Health Organisation (WHO).

Thailand's demographic shift towards an aging society poses unique socio-economic challenges and opportunities. The accelerated digital adoption during the COVID-19 pandemic further underscores the necessity for inclusive digital transformation. Through expert insights and collaborative discussion, this session aims to explore challenges faced by older persons and how digital inclusion can support healthy ageing and societal participation of the older persons, drawing on evidence from international studies and local initiatives.

Please note that participation in this event is by invitation only. For more information, please find attached the draft concept note, or visit the webpage <http://itu.int/go/CTPA>, for additional information. Kindly confirm your interest to participate in the information session with Mr. Sean Doral (sean.doral@itu.int) latest by **28 March 2024**.

We look forward to your or your representative's participation in the meeting.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Atsuko'.

Atsuko Okuda
Regional Director
ITU Regional Office for Asia and the Pacific
