

Improving the measurement of ICT skills

Summary of results from the experts sub-group

8th Meeting of the EGH
SEPT 17, 2020

Objectives

At the 7th EGH in 2019, it was decided to:

1. Develop recommendations for modules to provide measures of the following topics:
 - a) Ability to evaluate the reliability of content that is found online
 - b) Awareness of the use of devices and/or the Internet as they related to personal well-being (e.g. cyberbullying, addiction and social exclusion)
 - c) Ability to recognize skill gaps and an individual's need for upskilling in the digital domain
2. Develop proposals for the aggregation of ICT skill categories

a) Ability to evaluate the reliability of content found online

- Module is based on the critical literacy questions from the most recent Model Survey of ICT Use in the European Union
- Chose to focus on the behavior of the individual and the question on whether a respondent saw disinformation is not included in the proposed indicators
- Only three questions although a larger suite of questions are provided in the Appendix of the document

Indicator	Question
Behavior: checking accuracy of online info	<p>E4. Have you checked the truthfulness of the information you found on internet news sites or social media in the last 3 months?</p> <p>Yes No</p>
Behavior: action taken to check accuracy of online info	<p>(if E4 = yes)</p> <p>E5. How did you check accuracy of the information found on the internet?</p> <ul style="list-style-type: none"> a) Checking the sources or finding other information on the internet (e.g. other news sites, Wikipedia, etc.) b) Following or taking part in discussion on the internet regarding the information c) Discussing the information offline with other persons or using sources not on the internet
Reason for not checking	<p>E6. Why did you not check the accuracy of the information you found on the internet?</p> <ul style="list-style-type: none"> a) You already knew that information, content or source was not reliable b) Lack of skills or knowledge (e.g. Did not know how to check information on the internet or it was too complicated to do) c) Did not think about checking d) Did not care about checking. e) Trusted the source without having to check. f) Other reasons

b) The use of the Internet and devices and their relation to personal well-being

- Two approaches considered:
 - 1) self-reported incidents; and
 - 2) subjective well-being approach
- Hybrid approach suggested approach is in line with a recent in-depth review of the topic that was conducted for the Conference of European Statisticians on Digitalization and well-being
- Proposed module of six questions

Indicator	Question
Evaluative well-being	<p>Q1. Taking all things together, how happy would you say you are?</p> <p>Extremely unhappy 0 1 2 3 4 5 6 7 8 9 10 Extremely happy</p>
Self-rated health	<p>Q2. The next questions are about your health. By health, we mean not only the absence of disease or injury but also physical, mental and social well-being.</p> <p>How is your health in general? Would you say it is...</p> <p>Very good Good Fair Bad Very bad Don't know</p>
Self-rated mental health	<p>(if respondent uses a smartphone)</p> <p>Q3. In a typical day, which of the following scenarios apply to you? Select all that apply.</p> <ul style="list-style-type: none"> a) You check your smartphone at least every 30 minutes b) Before going to sleep, the last thing you do is check your smartphone c) After waking up, the first thing you do is check your smartphone d) You use your smartphone while watching television e) You use your smartphone while eating dinner with others
Taking a break from Internet	<p>Q4. During the past 12 months, did you do any of the following for the benefit of your well-being?</p> <ul style="list-style-type: none"> a) Used software or adjusted device settings to limit the amount of time spent on devices (e.g. smartphones) b) Took extended breaks from or decreased time spent on social media

Indicator	Question																								
Self-perceived impact of digital technologies	<p data-bbox="432 97 1995 185">Q5. In general, would you say your use of digital technologies and the Internet have had a mainly positive or negative impact on the following?</p> <table border="1" data-bbox="521 220 1933 687"> <thead> <tr> <th data-bbox="521 220 875 284"></th> <th data-bbox="875 220 1229 284">Positive</th> <th data-bbox="1229 220 1583 284">Negative</th> <th data-bbox="1583 220 1933 284">Neutral</th> </tr> </thead> <tbody> <tr> <td data-bbox="521 284 875 376">a) Connectedness with friends or family</td> <td data-bbox="875 284 1229 376"></td> <td data-bbox="1229 284 1583 376"></td> <td data-bbox="1583 284 1933 376"></td> </tr> <tr> <td data-bbox="521 376 875 469">a) Sense of belonging to your community</td> <td data-bbox="875 376 1229 469"></td> <td data-bbox="1229 376 1583 469"></td> <td data-bbox="1583 376 1933 469"></td> </tr> <tr> <td data-bbox="521 469 875 533">a) Your mental health</td> <td data-bbox="875 469 1229 533"></td> <td data-bbox="1229 469 1583 533"></td> <td data-bbox="1583 469 1933 533"></td> </tr> <tr> <td data-bbox="521 533 875 596">a) Your physical health</td> <td data-bbox="875 533 1229 596"></td> <td data-bbox="1229 533 1583 596"></td> <td data-bbox="1583 533 1933 596"></td> </tr> <tr> <td data-bbox="521 596 875 687">a) How you spend your time</td> <td data-bbox="875 596 1229 687"></td> <td data-bbox="1229 596 1583 687"></td> <td data-bbox="1583 596 1933 687"></td> </tr> </tbody> </table>		Positive	Negative	Neutral	a) Connectedness with friends or family				a) Sense of belonging to your community				a) Your mental health				a) Your physical health				a) How you spend your time			
	Positive	Negative	Neutral																						
a) Connectedness with friends or family																									
a) Sense of belonging to your community																									
a) Your mental health																									
a) Your physical health																									
a) How you spend your time																									
Self-perceived victimization	<p data-bbox="432 783 2051 871">Q6. During the past 12 months, have you felt that you were a victim of any of the following incidents on the Internet?</p> <p data-bbox="432 879 757 919">Select all that apply.</p> <p data-bbox="432 927 757 967">Did you experience:</p> <ul data-bbox="432 975 1339 1302" style="list-style-type: none"> a) Bullying b) Harassment c) Discrimination d) Stalking e) Misuse of personal pictures, videos or other content f) Fraudulent use of your identity g) Other <p data-bbox="432 1310 488 1350">OR</p> <p data-bbox="432 1358 488 1398">No</p>																								

c) Individual Upskilling in the Digital Domain

- Focused on a self-reported module in addition to two questions on the type and the topic of the training undertaken
- These questions are based on the Community Survey on ICT Usage in Households and by Individuals which will encourage comparability
- Module of three questions allows the capture of information on:
 - the perceived need for upskilling by an individual in particular domains
 - an indicator of the use of formal vs. informal learning
 - a third indicator on the topic(s) of study chosen by individuals

Indicator	Question																																			
Self-perceived skills mismatch (digital skills)	<p data-bbox="436 150 1962 245">Q1. Which of the statement below best describes your skills relating to the use of the following digital tools and applications in your daily life?</p> <table border="1" data-bbox="483 256 2004 890"> <thead> <tr> <th data-bbox="483 256 786 424"></th> <th data-bbox="786 256 1090 424">I don't have enough skills and I need training to be able to use...</th> <th data-bbox="1090 256 1395 424">I have the skills but I need training to make more effective use of...</th> <th data-bbox="1395 256 1700 424">I have enough skills to use effectively and don't need training on...</th> <th data-bbox="1700 256 2004 424">I don't need to use...</th> </tr> </thead> <tbody> <tr> <td data-bbox="483 424 786 515">a) Desktop or laptop computers</td> <td data-bbox="786 424 1090 515"></td> <td data-bbox="1090 424 1395 515"></td> <td data-bbox="1395 424 1700 515"></td> <td data-bbox="1700 424 2004 515"></td> </tr> <tr> <td data-bbox="483 515 786 606">b) Tablets (e.g. iPads, etc.)</td> <td data-bbox="786 515 1090 606"></td> <td data-bbox="1090 515 1395 606"></td> <td data-bbox="1395 515 1700 606"></td> <td data-bbox="1700 515 2004 606"></td> </tr> <tr> <td data-bbox="483 606 786 668">c) Smartphones</td> <td data-bbox="786 606 1090 668"></td> <td data-bbox="1090 606 1395 668"></td> <td data-bbox="1395 606 1700 668"></td> <td data-bbox="1700 606 2004 668"></td> </tr> <tr> <td data-bbox="483 668 786 730">d) IoT devices</td> <td data-bbox="786 668 1090 730"></td> <td data-bbox="1090 668 1395 730"></td> <td data-bbox="1395 668 1700 730"></td> <td data-bbox="1700 668 2004 730"></td> </tr> <tr> <td data-bbox="483 730 786 821">e) Cloud storage tools</td> <td data-bbox="786 730 1090 821"></td> <td data-bbox="1090 730 1395 821"></td> <td data-bbox="1395 730 1700 821"></td> <td data-bbox="1700 730 2004 821"></td> </tr> <tr> <td data-bbox="483 821 786 890">f)....</td> <td data-bbox="786 821 1090 890"></td> <td data-bbox="1090 821 1395 890"></td> <td data-bbox="1395 821 1700 890"></td> <td data-bbox="1700 821 2004 890"></td> </tr> </tbody> </table>		I don't have enough skills and I need training to be able to use...	I have the skills but I need training to make more effective use of...	I have enough skills to use effectively and don't need training on...	I don't need to use...	a) Desktop or laptop computers					b) Tablets (e.g. iPads, etc.)					c) Smartphones					d) IoT devices					e) Cloud storage tools					f)....

Training taken to improve digital skills	<p data-bbox="436 922 2024 1018">Q2. Have you carried out any of the following learning activities to improve your skills to use digital tools and applications in the last 12 months? Select all that apply.</p> <ul data-bbox="436 1027 1890 1235" style="list-style-type: none"> a) Training paid by yourself or third parties (e.g. employer, public organizations) b) Free online course c) Self-study (e.g. books, YouTube videos, tutorials, etc.) d) Learning from others (e.g. colleagues, family, friends, etc.) <p data-bbox="436 1295 1037 1337">If yes to any item in Q2, go to Q3.</p>																																			

Indicator	Question
Type of digital tool/skill acquired in past 12 months	<p>Q3. Which of the following topics on the use of digital tools or applications did you learn about in the last 12 months?</p> <ul style="list-style-type: none"> a) Configuring and installing devices b) Using a software (e.g. Microsoft Office) c) Online marketing or e-commerce d) Social media e) IoT applications (e.g. smart TV, connected watch) f) Cloud services (e.g. Google drive, Amazon Web Services, etc.) g) IT-security or privacy management h) Programming languages, including design or management of websites i) Other, please specify

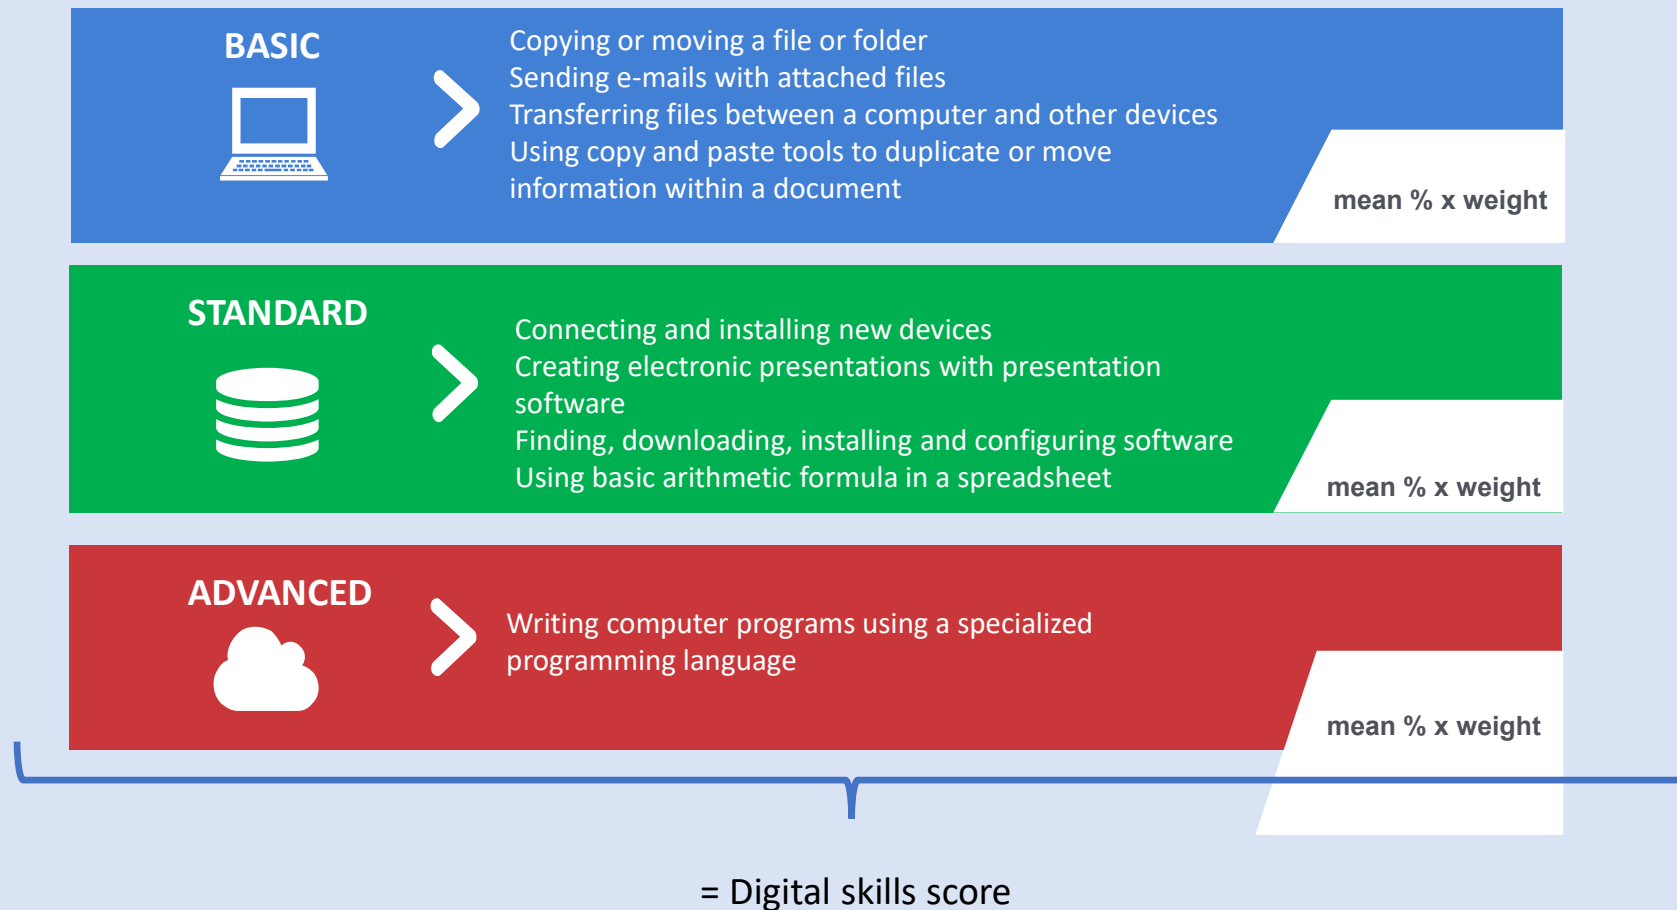

Aggregation of ICT skill categories: Digital Skills Dashboard

Purpose and considerations

- Purpose: create a summary skills score that combines the multiple types of ICT skills captured in the ITU model survey
- Considerations:
 - only aggregate data is available from the member countries
 - a single uniform weighting approach may not be appropriate given varying policy priorities across member countries

Proposed approach builds on previous work by EGH and EGTI, to categorize ICT skills into **basic, standard, and advanced**

Categorization and aggregation of digital skills from ITU model survey

Digital skills dashboard

Discussion and next steps
