Abstract: This liaison statement contains some issues concerning new terms and definitions in SG20 Recommendations and its applicability.

At the CCT meeting (which is composed by SCV, CCV and ITU-D representatives) of 1 June 2018, it was noted that ITU-T SG20, under its activity and development of new Recommendations of the ITU-T Y.4500.xx series, uses terms and definitions that could also be adopted by other ITU-T SGs as well as by ITU-R SG 5 and its Working Parties 5A and 5D.

The SCV/CCV would like to draw the attention of ITU-T SG20 to the need for closer work within ITU to harmonize and use terminology, avoiding, if possible, redefining existing terms and definitions.

Furthermore, general coordination of work across the relevant Study Groups of all ITU Sectors prior to approval of Recommendations would greatly harmonize progress across the Union.

The SCV/CCV invites ITU-T SG20 to submit to the next SCV/CCV meeting a list of new terms, definitions and abbreviations adopted and developed within SG20 after WTSA-16 for their harmonization among all ITU SGs.
