

Thematic Group on Smart City Platforms

Presented by:
Ramón Ferri, U4SSC Thematic Leader
7 December 2021

Objectives. Working Groups. Experts

This Thematic Group highlights from a city perspective: current best city practices, unresolved challenges and requirements that must be tackled via integrated city management, as well as a new version of the agile response architecture made up of advanced technologies, and the outlook for deployment in different environments.

103 submissions

- 36 Countries
- 103 Experts selected
- 26 PhDs
- Backgrounds:
 - Researchers (10)
 - Technical experts (12)
 - Professionals (26)
 - Regulations/Standards (19)
 - Smart Cities (23)

Experts 1 32

This thematic group comprises five working groups:

WG1: Digital Solutions for integrated city management & use cases.

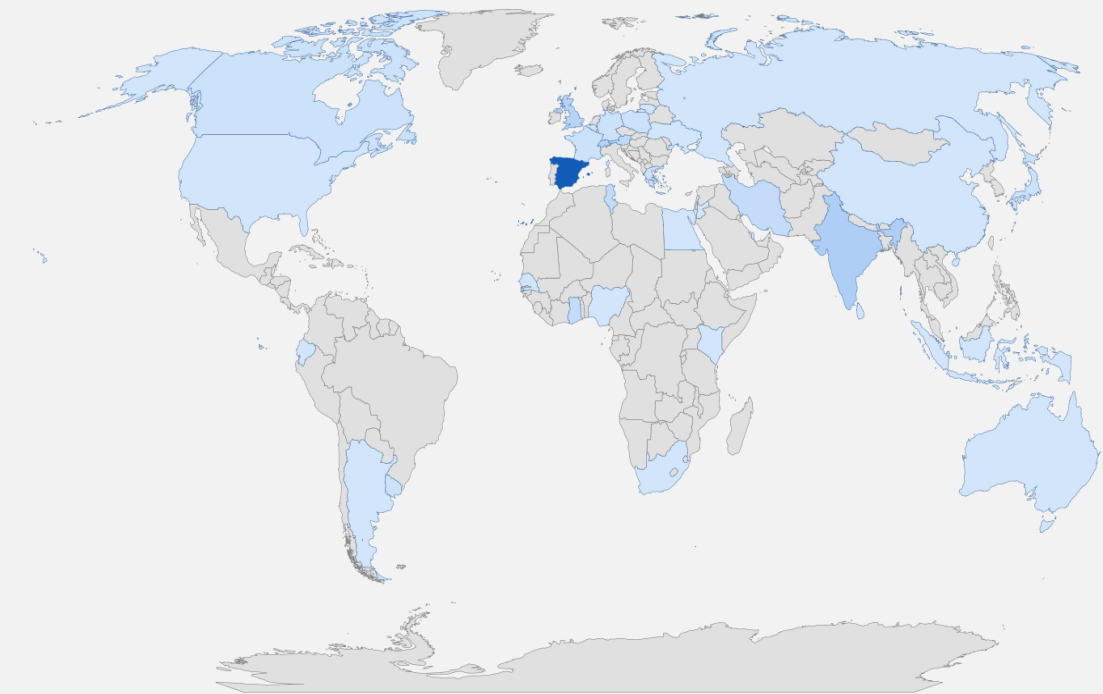

2

WG2: Smart public health emergency management and ICT implementations.

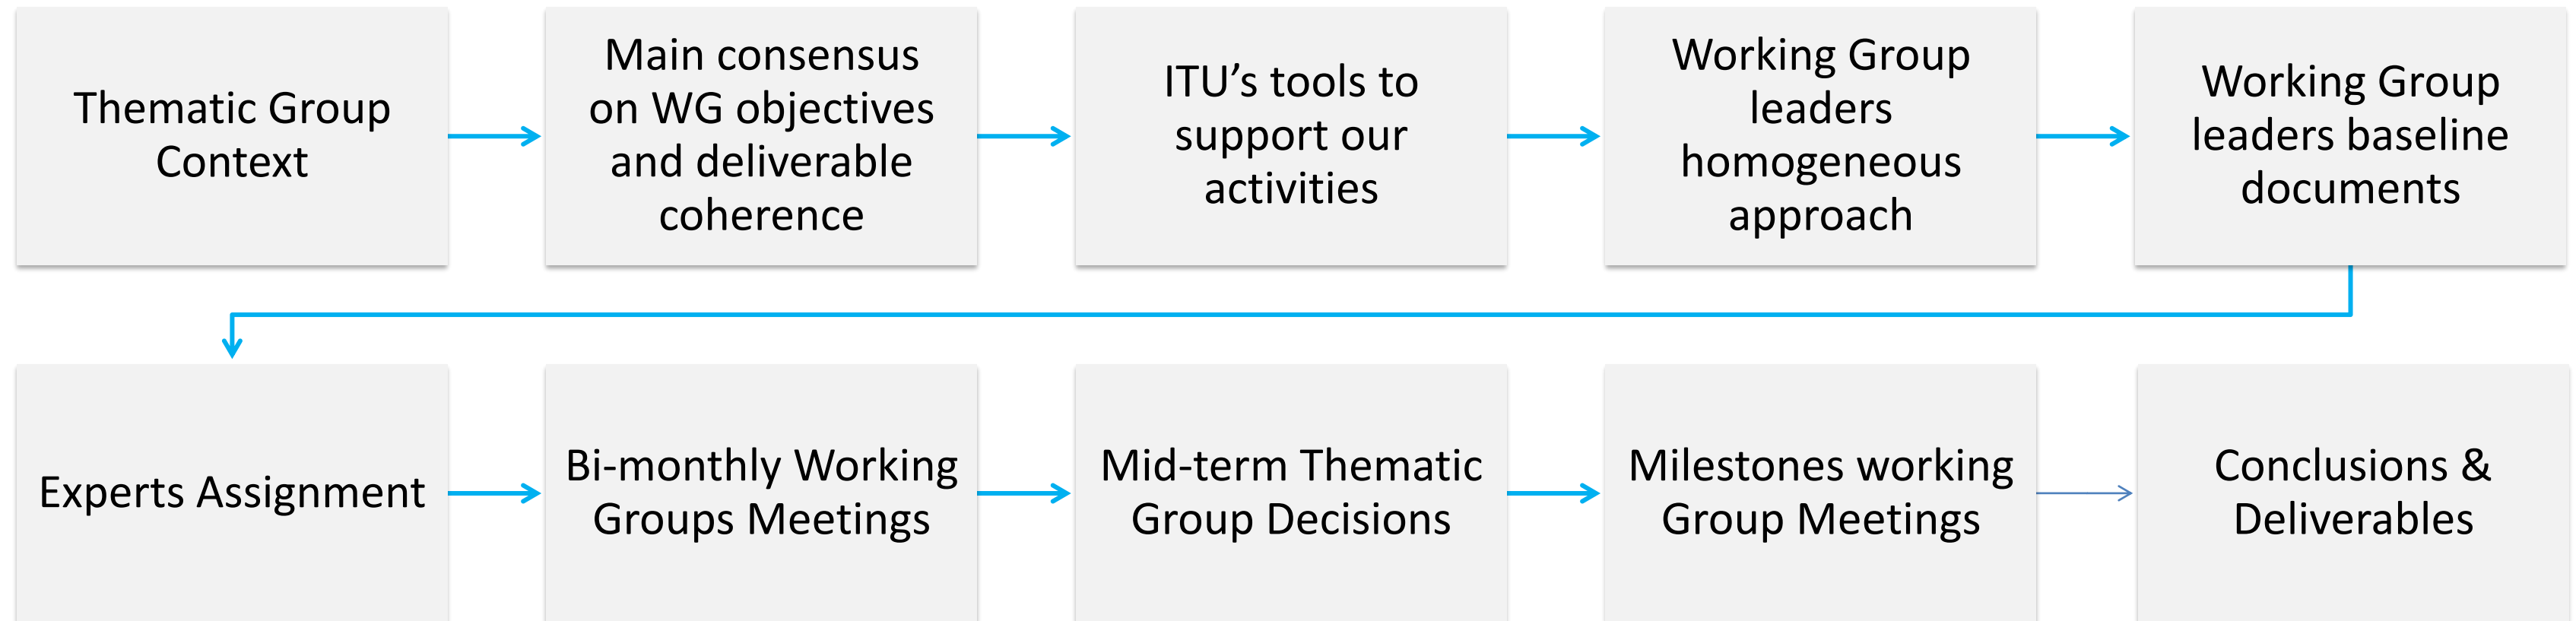

WG3: New architecture for sustainable, digital development.

WG4: Smart Tourism: a path to more secure and resilient destinations

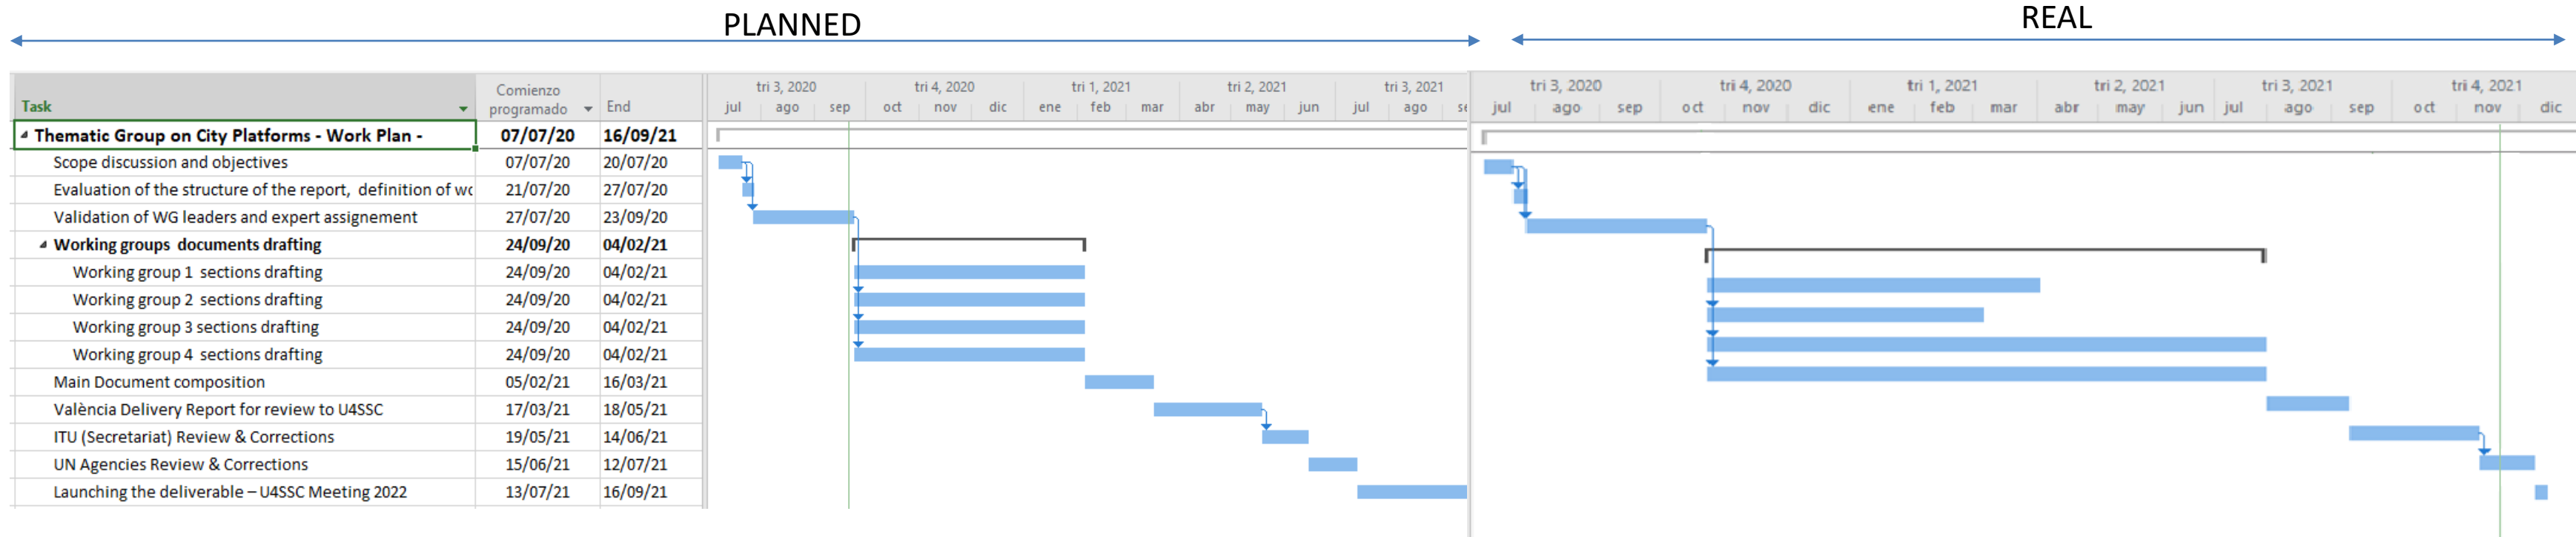

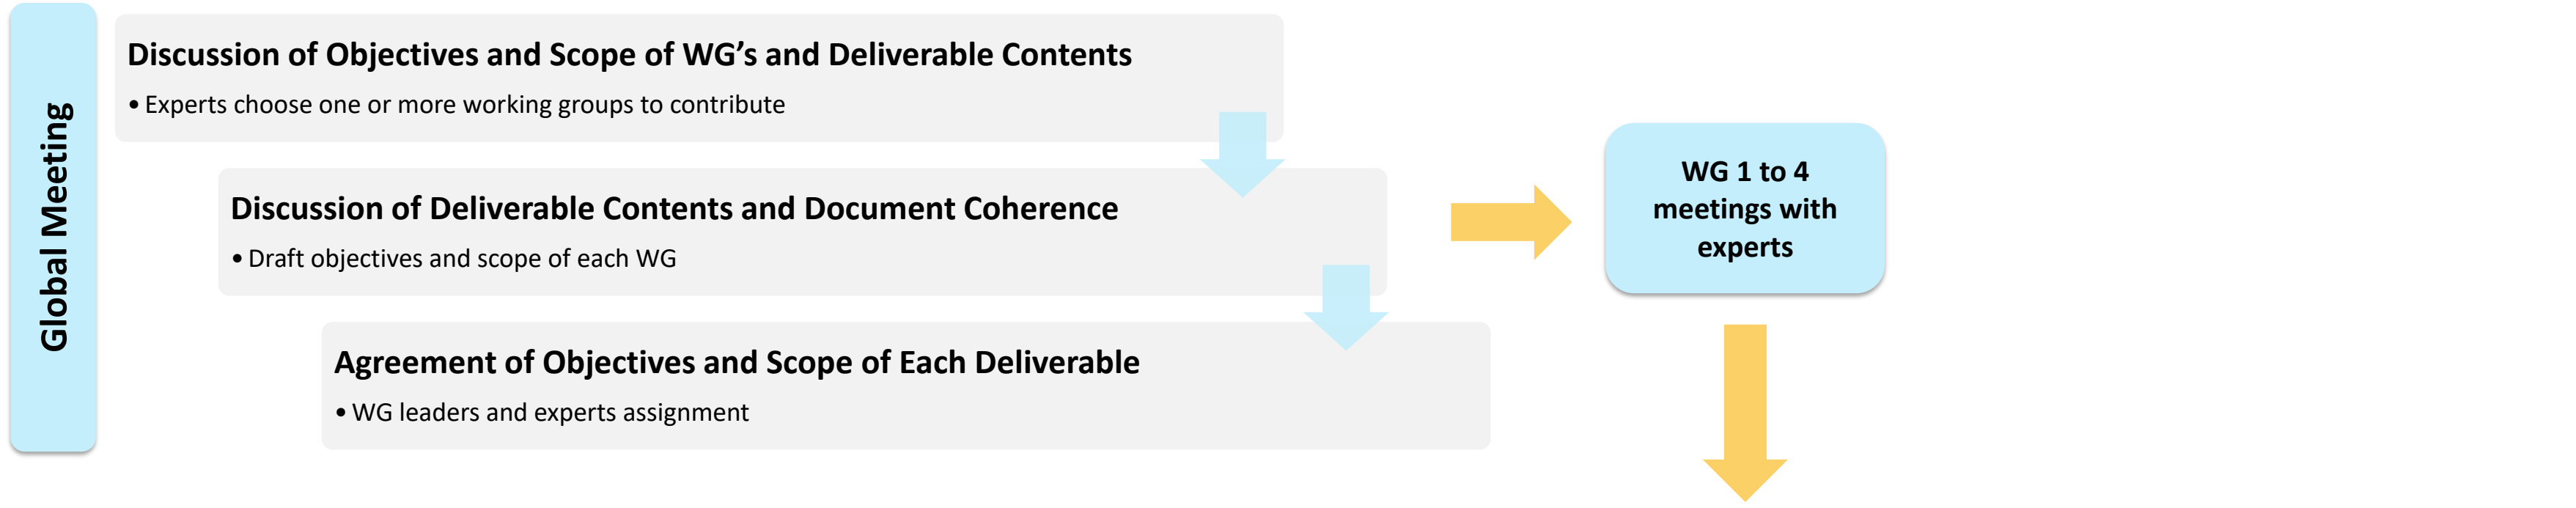

WG5: Reference framework for an integrated management of a smart sustainable city

Thematic Group Meetings Objectives & Process

Work Plan & Timeline

Each WG leader has been responsible for organizing their group meetings and their outcome document, as well as coordinating with the TG responsible and other WG leaders.

WG1 Digital Solutions for Integrated City Management & Use Cases

This report provides a global perspective on how **city platforms** facilitate more efficient and effective **control of public infrastructure and services**, improve economic efficiencies, enable rapid **development of new or complex services** and play a critical role in the overall **digital transformation** of urban areas.

Illustrated by success stories, this document presents the **experience of cities**, communities and municipalities participating in the U4SSC initiative in developing their smart city **strategies**, the **governance** of smart projects, and the principal **role of a smart city platform** (or set of key components that constitute it) in contributing **to improving the lives** of their citizens.

Leader TG & WG1
Ramón Ferri

WG3 New Architecture for Sustainable, Digital Development

		U4SSC - C  - E
UNITED FOR SMART SUSTAINABLE CITIES		August 2021
		English only Original: English
Deliverable:	City Platforms - WG3	
U4SSC - CONTRIBUTION		
Source:	Martin Brynskov (OASC) and Tania Marcos (UNE) - WG leads	
Title:	New architecture for sustainable, digital development	
Contact:	Michael Mulquin	Email: michael@oascities.org

This document provides **guidance** to government stakeholders on **setting up/procuring smart city platforms**. It illustrates the current **state-of-the-art of interoperable smart city platforms** and provides **recommendations for technical specifications**.

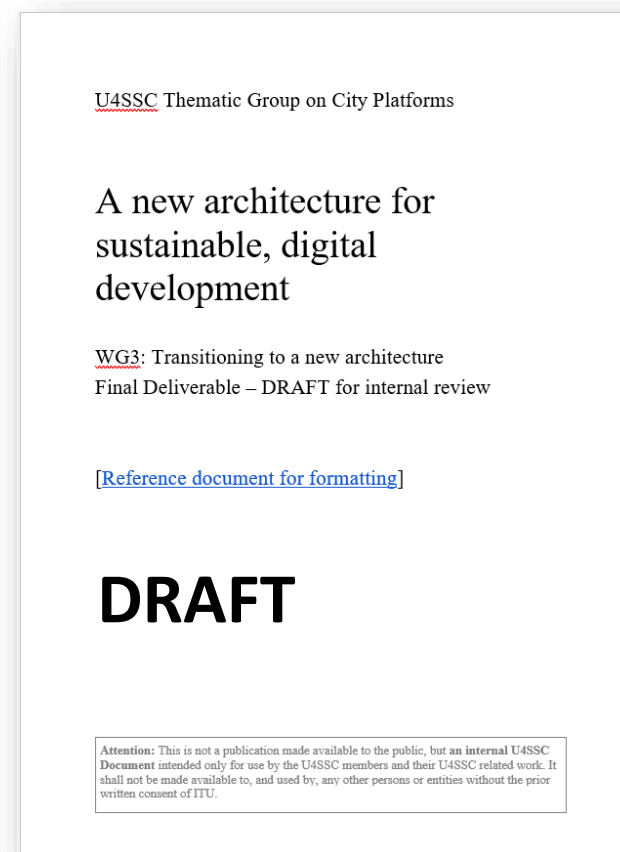

It shows how to **build capacity** in the use of the standards, mechanisms, services, guidelines and tools that **enable the interoperability of data platforms** for cities and communities, to **speed up the delivery of services** leading to innovation and positive local impact.

Leaders WG3

Tania Marcos (UNE)

WG4 Smart Tourism: A Path to More Secure and Resilient Destinations

The smart tourism as a use case for future scenarios for next-generation of city platforms.

- **Digital transformation**, a vital partner for safe and resilient tourism
- The **smart tourism destination framework**
- Smart Tourism Technology Platform, the smart city platform for smart destination through a methodology based on **governance, Innovation, technology, sustainability and accessibility.**
- **Interoperability by design** for a distributed intelligence (inhabitants, tourists, companies, city managers)
- **Solutions and success use cases** on: Tourism spatial management; Promotion and tourist relations channels; Local service supply and demand management; Tourism intelligence

Leader WG4
Alberto Bernal

Directorabernalg@minsait.com

Lessons Learned

Geographical distribution of the experts enriches the quality of the deliverables.

The professional background of the experts provides different views on the same subject.

Involvement of the experts in the development of the deliverable, including many cities

Strategic guidance and support from U4SSC secretariat

Good implementation of city platforms around the world, basic infrastructure for future smart, sustainable and resilient cities.
