

# SYMPOSIUM ON THE FUTURE NETWORKED

# CAR

GENEVA INTERNATIONAL MOTOR SHOW  
**3 MARCH 2016**

**King W Gee**

Director

Engineering & Technical Services

**American Association of State  
Highway and Transportation**

**Officials (AASHTO)**

**UNECE**

# Big Data for Smart Cities

Symposium on The Future Networked Car  
Geneva International Motor Show  
3 March 2016

King W Gee  
Director, Engineering & Technical Services  
American Association of State Highway and Transportation Officials

# AASHTO

- American Association of State Highway and Transportation Officials (AASHTO)
- A nonprofit association (NGO) founded in 1914
- Members include:
  - Highway and transportation departments of the 50 states, the District of Columbia, and Puerto Rico
  - 41 Associate Members from Federal, State, and Local agencies and other countries
- Covers all five transportation modes:  
**Air, Highways, Rail, Transit, and Water**

# Fully Connected Vehicle

## Infrastructure Messages

Signal Phase and Timing,  
Fog Ahead  
Train Coming  
Drive 35 mph  
50 Parking Spaces Available

## Vehicle Data

latitude, longitude, time, heading angle, speed, lateral acceleration, longitudinal acceleration, yaw rate, throttle position, brake status, steering angle, headlight status, wiper status, external temperature, turn signal status, vehicle length, vehicle width, vehicle mass, bumper height

Source: U.S. DOT

# Reality Check

- Data is not Information
- Information is not Action
- Envisioning does not Ensure Realization
- Transformations Requiring Policy Rethinking
- Broader Policy Issues
  - Beyond Technical Policy for Transportation
  - Cross-sectoral Public Policy for Mobility
- “Chicken & Egg Problem” → **Systems Thinking**

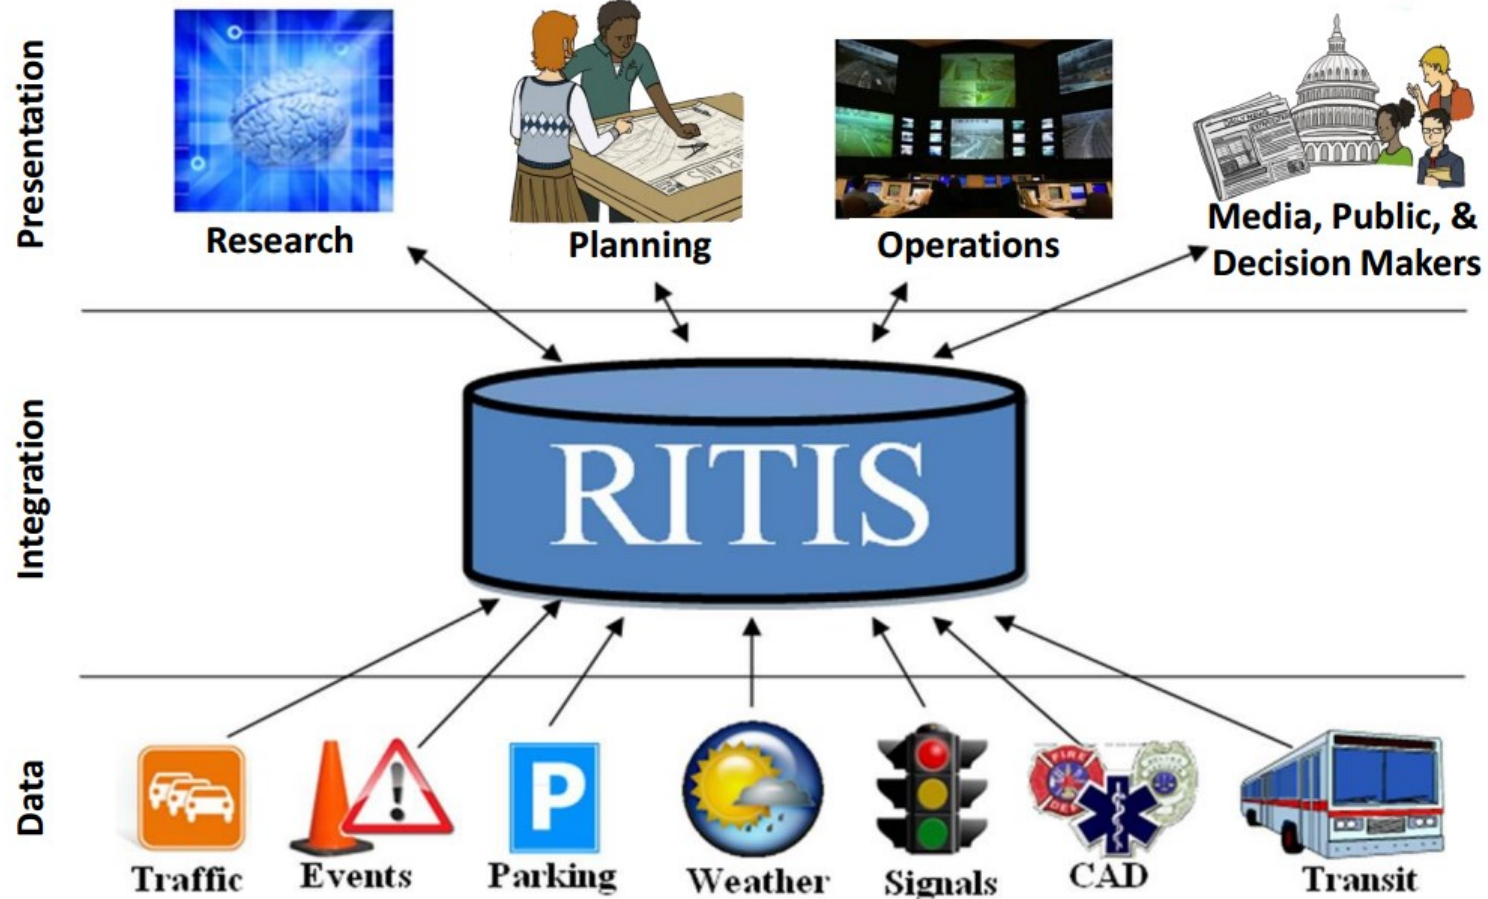

# Potentialities

- User Desired Functionalities
  - Seamless Multimodal Journey Options (Planning/Reliability)
- Private Offerings
  - Mobility Apps
  - New Services: Tesla “Summon”; Ford “Credit Link”  
Uber “Trip Experiences” API; etc.
- Public Agency Social Objectives
  - Safety & Mobility Benefits
- Public Agency Internal Opportunities
  - Crowd Sourcing of Condition Information
  - Vehicle Probe Data (WAZE “Connected Citizens” Partnership)

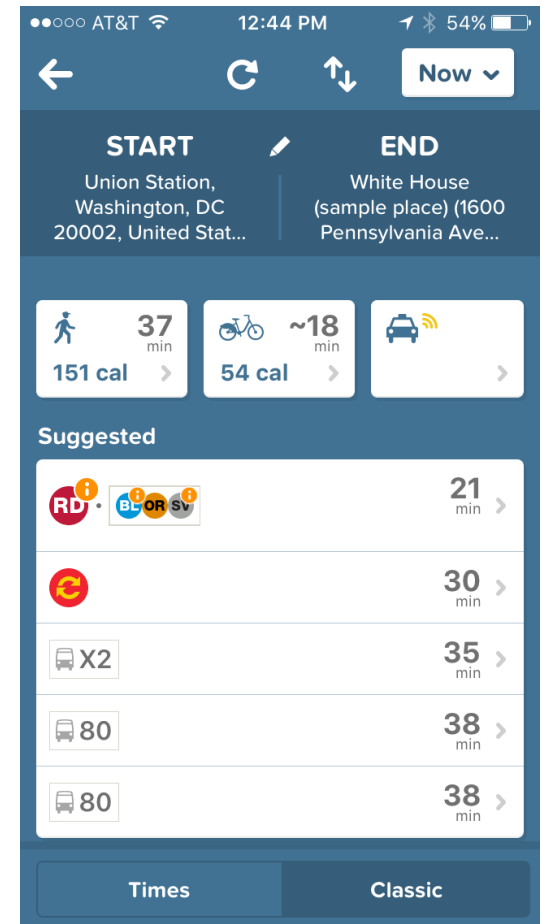

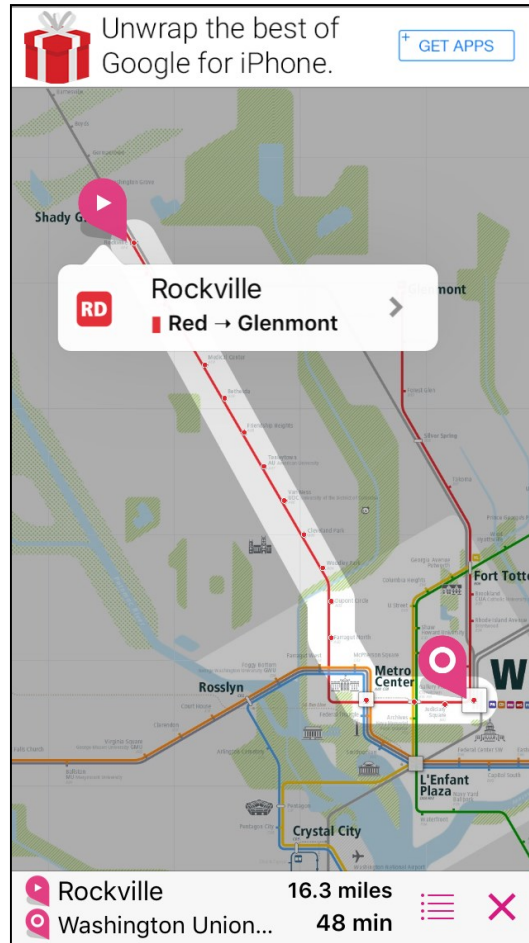

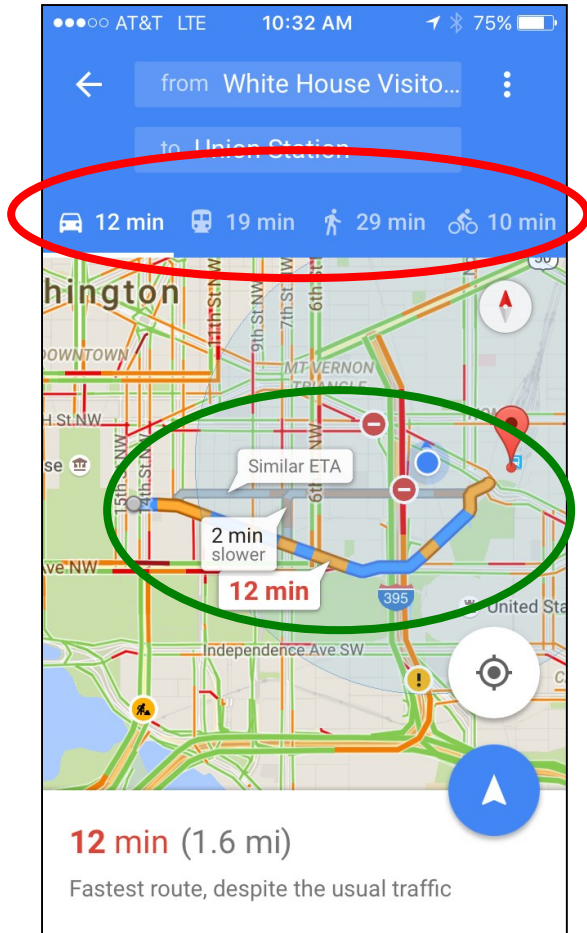

# Regional Integrated Transportation Information System (RITIS)

# Transportation Mobile App Examples

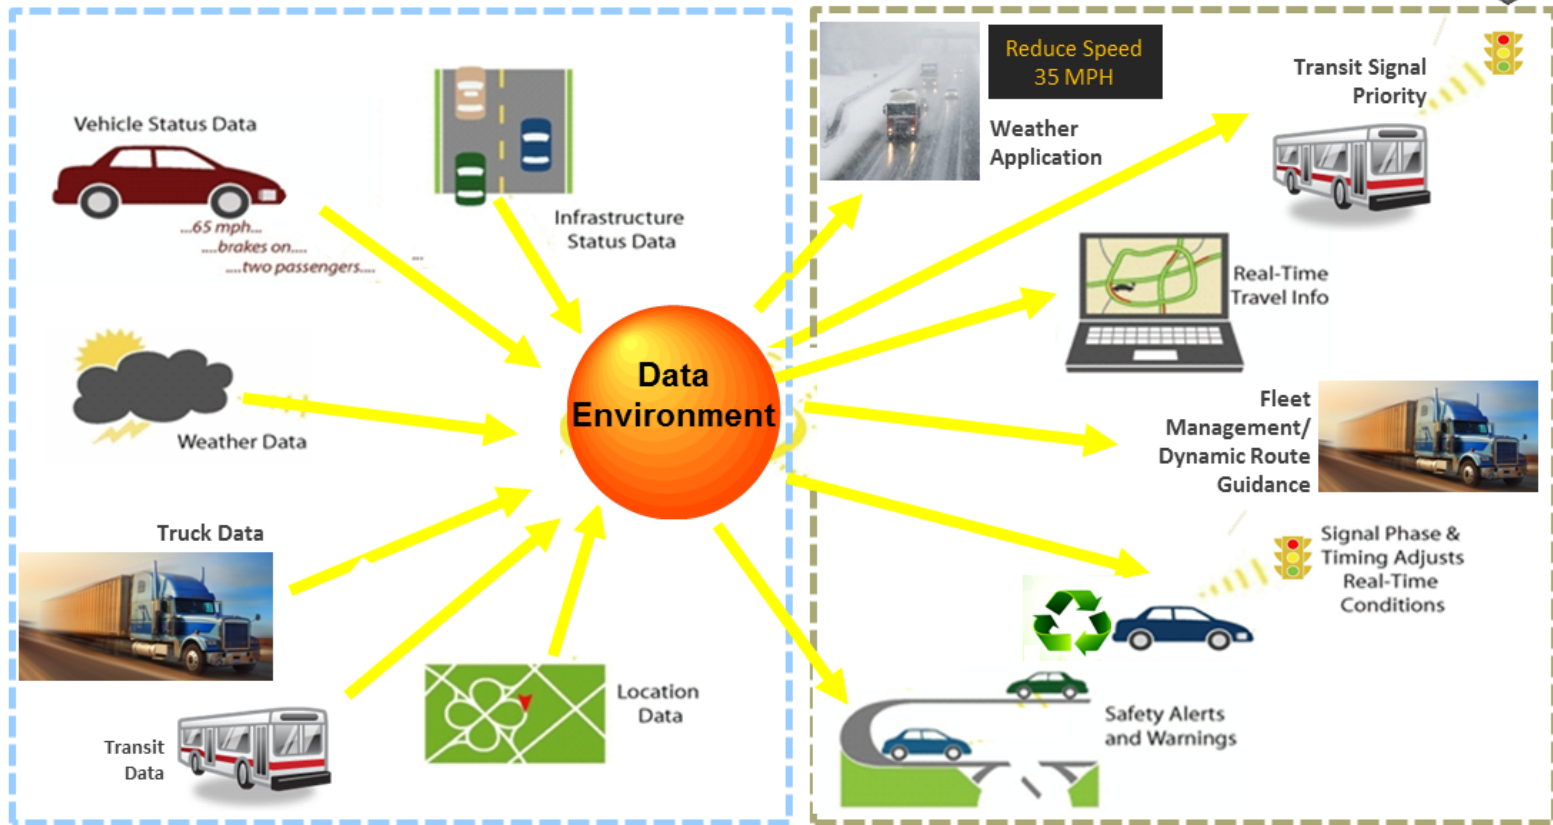

# Transportation Mobile App Examples

# VIIC Dynamic Mobility Program

## Real-time Data Capture and Management

## Dynamic Mobility Applications

VII CONSORTIUM

AASHTO

# USDOT Smart City Challenge

## **Technology Elements – Highest Priority**

1. Urban Automation
2. Connected Vehicles
3. Intelligent, Sensor-Based Infrastructure

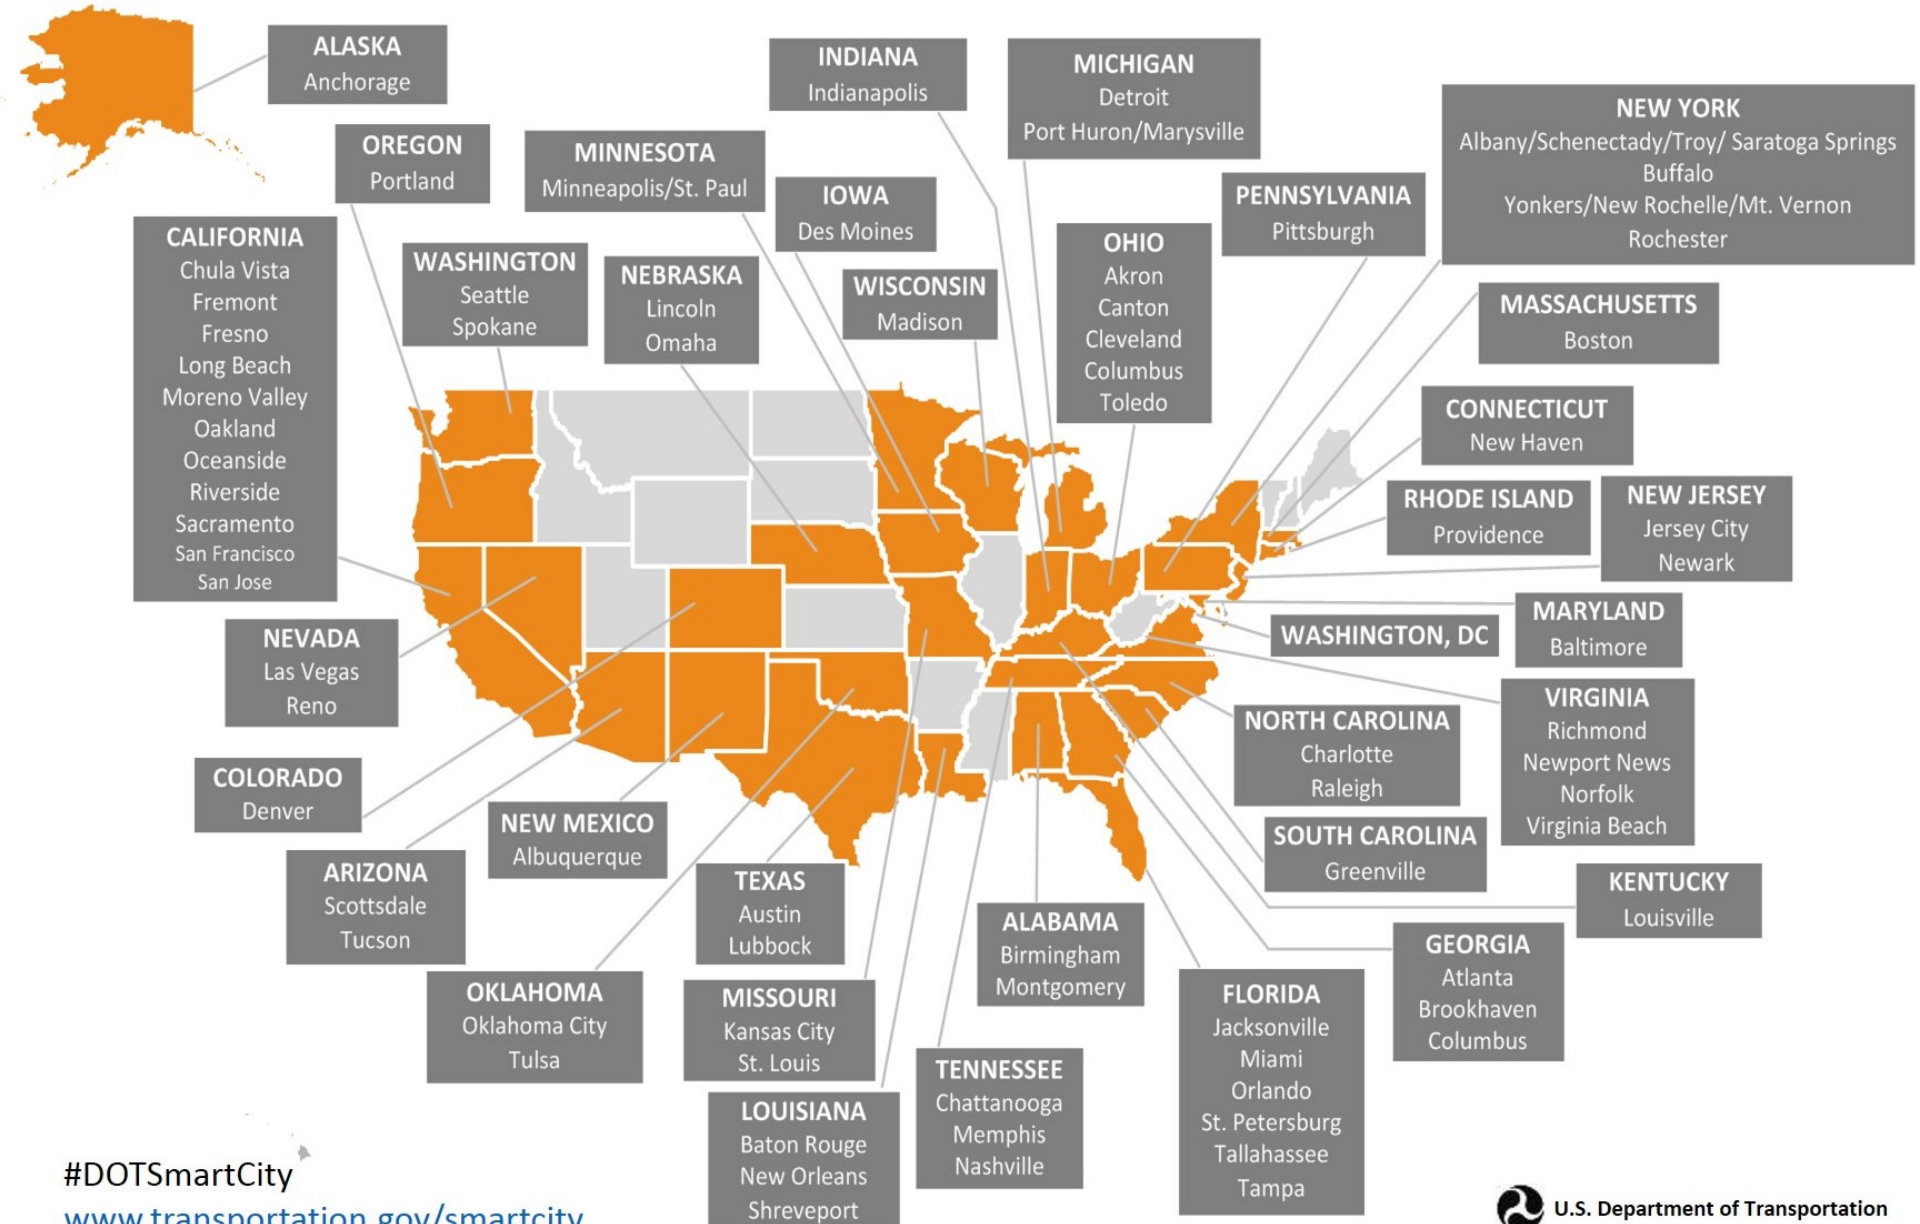

## **Innovative Approaches to Urban Transportation Elements – High Priority**

4. Urban Analytics
5. User-Focused Mobility Services and Choices
6. Urban Delivery and Logistics
7. Strategic Business Models and Partnering Opportunities
8. Smart Grid, Roadway Electrification, and Electric Vehicles
9. Connected, Involved Citizens

## **Underlying Smart City Elements – Priority**

10. Architecture and Standards
11. Low-Cost, Efficient, Secure, & Resilient Information & Communications Technology
12. Smart Land Use

 U.S. Department of Transportation

**AASHTO**

# Networked Car Challenges

- Turning Data → Information → Action
- Chicken & Egg Problem – PPP Needed
  - Vehicle and Infrastructure Investments
- Interoperability
- Mobility – Integration of Prior Silos
  - Systems Approach
- Privacy & CyberSecurity
- Public Acceptance
