verily

Google fiber

The problem: most of the world is unconnected

The lengths people go for access

Brazil

Peru

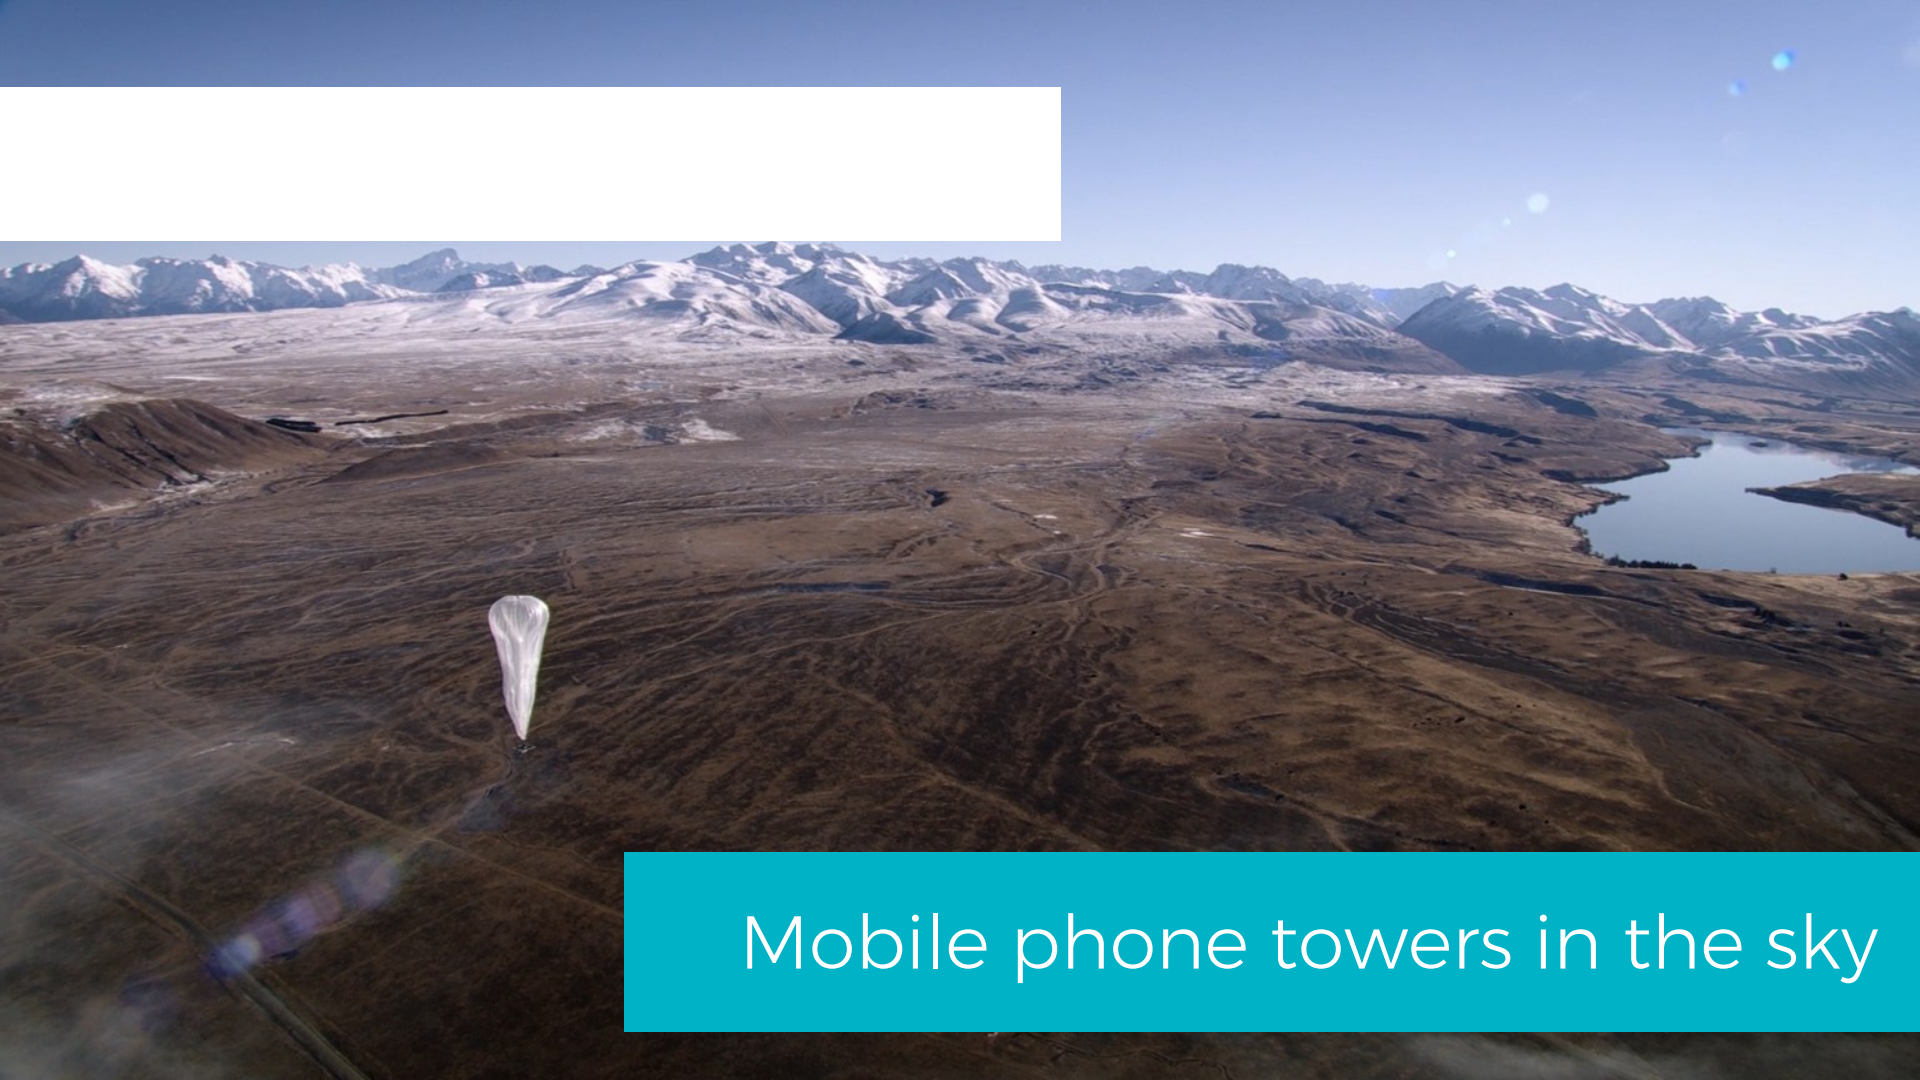

DRC

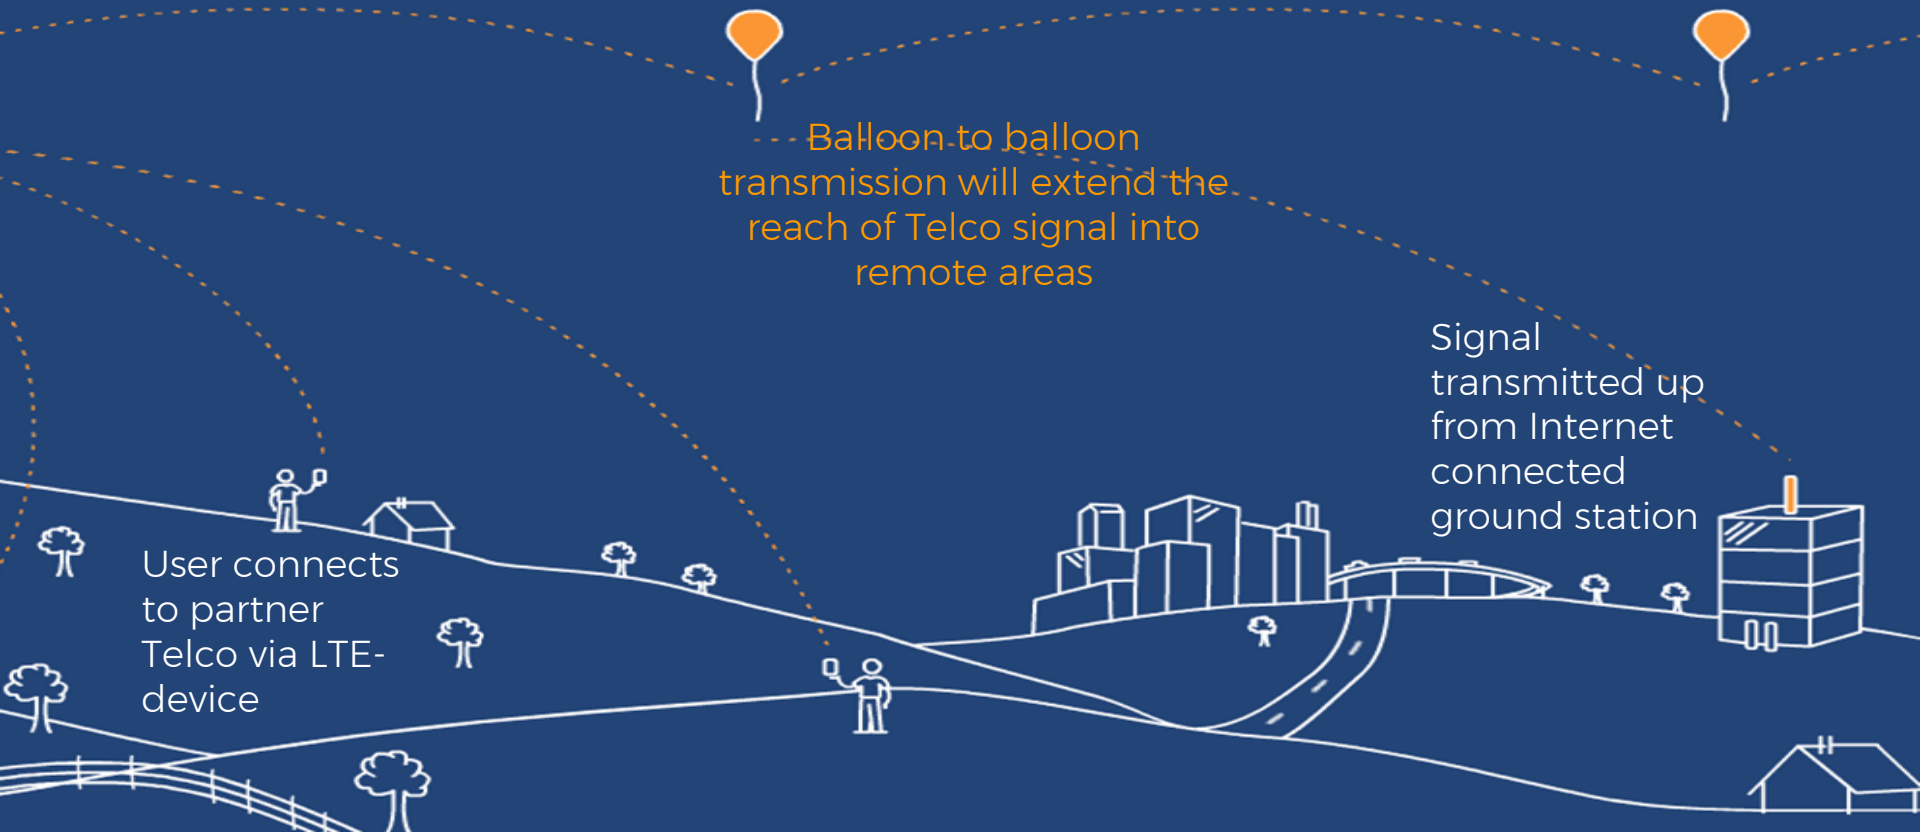

Access to internet transforms communities

- Generating \$2.2 trillion in additional GDP, a 72% increase in GDP growth rate, and >140 million new jobs
- Increasing crop yields by up to 50%
- Improving health literacy (e.g. 1 in 20 Google searches are health related)

Mobile phone towers in the sky

Project Loon connects remote users

Balloon-to-balloon transmission will extend the reach of Telco signal into remote areas

Signal transmitted up from Internet connected ground station

User connects to partner Telco via LTE-device

...in Peru with Telefonica (today)

- **Extends and augments the coverage of our partners' terrestrial network(s)**
- Direct to standard LTE handsets
- Uses partner SIMs and core network
- Transparent to users

- Covers up to 5,000 km² area
- >1 Gbps capacity
- Multiple links per balloon

Connectivity at the last hop

Urban

Suburban / Rural

Remote

LEGEND

Loon Balloon

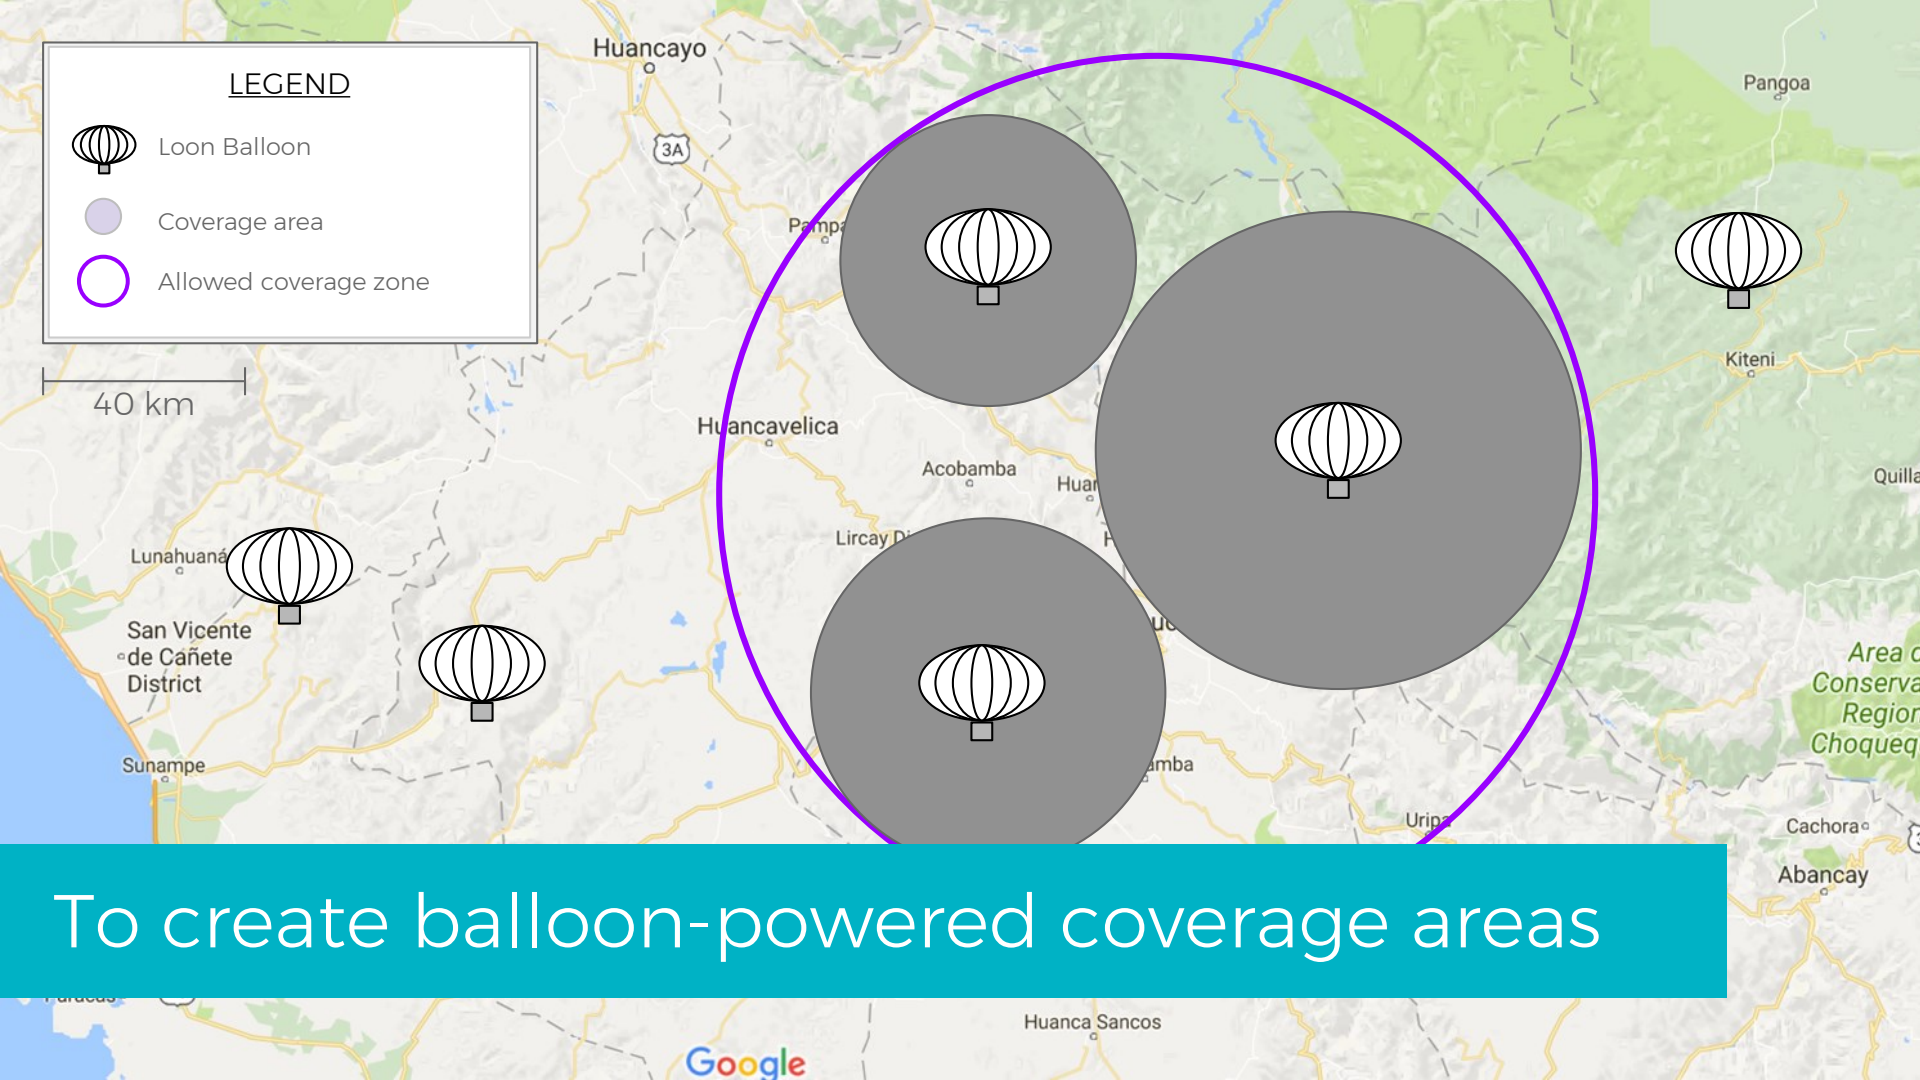

Coverage area

Allowed coverage zone

40 km

To create balloon-powered coverage areas

Loon is covering

km

Loon was testing in Peru during a time of need

Early 2017: The Peruvian government declared a state of emergency in more than 800 provinces due to extreme flooding

Groundstation Installation
