PRIVATE SECTOR SUPPORTED RESOURCES FOR **GIRLS IN ICT**

To help girls learn about and pursue careers in STEM, these programs depend on support from tech companies and others in the private sector. These are just some of the many resources you can explore to build your ICT career: digital skills training, coding camps, community support, and more. Take a look!

accelerateHER

<https://foundersofthefuture.co/>

Founders of the Future builds the next generation of diverse and purpose driven tech founders by building programmes, events and tools for future founders aged 14 to 30 in their journey to become tech founders.

<http://www.afchix.org/projects/>

The project is about capacity building related to women and Community Networks. The solution will use gender sensitive approaches and deliberately involve women as leaders and focal persons in the design, installation and maintenance of Community Networks.

<https://programcamp.bytedance.com>

Byte Camp is a biannual training camp organized by ByteDance since 2018. The camp aims to help college students improve and hone their programming skills.

[https://codetochange.org/
bootcamp-2/](https://codetochange.org/bootcamp-2/)

Our digital skills Bootcamp mentors will walk the participants through the basics and give them a hands-on introduction to digital skills.

The Digital Asia Hub and Berkman Klein Center are launching a Spring 2021 “Research Sprint” with a global cohort of 25 students participating from 21 different countries spread over 6 continents, in collaboration with the Global Network of Internet & Society Centers (NoC).

[https://www.dotrust.org/get-
involved/join-dotyouth/](https://www.dotrust.org/get-involved/join-dotyouth/)

#DOTYouth is a movement of daring young social innovators all over the world who are creating opportunities and transforming their communities as social innovators, digital ambassadors, and community leaders.

https://www.ey.com/en_gl/news/2019/10/ey-stem-tribe-mobile-platform-to-support-the-next-generation-of-girls-in-stem-careers

The EY STEM Tribe platform engages girls on their mobile devices with an entertaining and gamified STEM experience and was developed working with Tribal Planet, a Silicon Valley-based company that develops innovative platforms and ecosystems to engage global citizens around social impact priorities

<https://girldevelopit.com/events/details/girl-develop-it-frontend-classes-presents-summer-of-code-2021-front-end-development-cohort/>

Dive into Front End Development with this six-week summer course that will provide group learning, hands-on project management, and group work to learn and skill-up for web design and development.

<https://global.girleffect.org/what-we-do/mobile-platforms/springster/>

Coming to life via a website, social media and an AI-powered chatbot called 'Big Sis', Springster equips girls with the knowledge, confidence and connections they need to navigate the complex choices of adolescence.

<https://www.girlscouts.org/en/our-program/our-program.html>

Girl Scouts gain important skills in four areas that form the foundation of the Girl Scout Leadership Experience:

- Science, technology, engineering, and math (STEM)
- Outdoors
- Life Skills
- Entrepreneurship

<https://www.giz.de/en/workingwithgiz/75874.html>

The #eSkills4Girls initiative is supporting female role models in the tech sector, as well as cooperating with local stakeholders and organisations and forming strategic partnerships with the private economy.

<https://www.equalsintech.org/tech4girls>

Tech4Girls is part of the GSMA's commitment to reducing the gender gap in the tech and mobile industry. The initiative runs hands-on educational workshops for girls, where participants learn about different technologies, hear from industry leaders and gain a better understanding of careers in tech.

<https://www.microsoft.com/en-us/corporate-responsibility/skills-employability/girls-stem-computer-science>

Closing the gap requires tapping into girls' creativity, providing encouragement, and connecting STEM subjects to real-world examples.

<https://muvamoz.co.mz/muva-tech/>

MUVA Tech raises the awareness and interest of young women in the technology industries, and continues this awakening of interest by providing them with training to develop the basic skills to secure a first job.

<https://www.planinternational.nl/companies/asml-foundation>

Chinese students from rural schools are introduced to information technology during after-school clubs. The project promotes STEM education in which girls and boys get equal opportunities.

<https://iluwomensempowermentfund.com/ilu-womens-empowerment-program/>

Deetken Impact and Pro Mujer, joint venture partners in the Ilu Women's Empowerment Fund, have launched a program to further advance gender equality and gender smart business practices in Latin America and the Caribbean.

<https://www.shelovestech.org/competition>

World's largest startup competition for women and technology. Applications will be evaluated by the global screening team with the final shortlisted startups receiving access to exclusive pitch preparation curriculum and mentorship sessions.

<https://now.vodacom.co.za/article/codelikeagirl-with-vodacom>

The #CodeLikeAGirl initiative wants to get more girls into all manner of careers that require coding skills or to help them get a start as STEM entrepreneurs.

<https://www.opportunitiesforafricans.com/the-vodacom-discover-graduate-internship-programme-2021-2022/>

Vodacom internship: A skills training program for the development of future leaders.

<https://www.vm.co.mz/index.php/individual/Noticias/Vodacom-Turma-Tudobom2>

Vodacom's Mozambique school competition, where schools are selected from the Provinces for the regional phase and, later, the best ones are selected for the national phase. Students between 13 and 21 years old can participate in the contest.

<https://www.worldbank.org/en/publication/human-capital>

A global effort to accelerate more and better investments in people for greater equity and economic growth. The HCP aims to protect and invest in people, with 82 countries participating and many projects.

<https://www.worldpulse.com/she-transforms-tech>

With #SheTransformsTech, World Pulse rallied your voices to inform a new technology agenda that supports and enables women's leadership. Connect with more than 100 local leaders who are training women and girls to use technology to share their stories and grow their leadership.
