ICT Regulatory Decision Clearinghouse

Alessandra Pileri
ICTdec Administrator
ITU / BDT

ICTdec

- Partnership ITU/World Bank
- On-line resource that provides access to regulatory decisions originating from ICT decision-making bodies from around the world such as telecommunications regulators, industry ombudsmen and specialized dispute resolution tribunals

Search

ok

The ICT Regulatory Decisions Clearinghouse (ICTDec) is an online resource that provides a one-stop access point to decisions originating from ICT decision making bodies such as telecommunications regulators, industry ombudsmen and specialized dispute resolution tribunals. Currently, ICTDec provides unified and simplified access to thousands of decisions available on the Web, as well as to selected decisions unavailable online.

ICTDec integrates two services in a single Web-based resource:

- A Web search engine of websites belonging to ICT decision making bodies
- A catalogued repository of ICT regulatory decisions

ICTdec

- Facilitates the global exchange of information, experience and legal precedent among stakeholders in the field of dispute resolution
- Aims at promoting the application of effective decision making techniques

ICTdec

- Decision making bodies to allow their decisions to be publically available through ICTdec.
- So far more than 500 decisions and case summaries

Development of ICTdec

- ICTdec now allows decision making bodies to upload decisions directly to the database
- Register on the dedicated website (www.ictdec.org)
- Member login area
- username and password
- the whole platform is now available in six official languages of ITU.

Add Decision

Decisions constitute the official decisions from ICT Decision Making Bodies that make up the clearinghouse. Each decision is associated to a specific database and you must specify its title and date. It is also possible to associate a decision to one or more categories, according to its topic. Files can be inserted in any format readable by Microsoft Word, and in PDF. Please note that you cannot delete a decision, but should inactivate it instead.
