Annex I – PRELIMINARY AGENDA

Assessment of the Present Situation of Cyber Legislation in the Pacific Island Countries

Port Villa, Vanuatu
2-4 March 2011

The objectives are to formally present and discuss the Assessment of the present situation of Cyber Legislation; to solicit inputs from ICT stakeholders regarding the main findings including regional best practice; and to define jointly the future activities arising out of the Assessment report.

Day 1 (Wednesday, 2.03.2011)	
0900-0930	Opening Session – Welcome and MC TBC • Opening Prayer – TBC • Mrs. Gisa Fuatai Purcell, Opening Remarks Global ITU-EC Project Coordinator, ITU • Local Speaker- Opening Session Speech (TBC) • Key Note Address – TBC
0930-0945	**COFFEE BREAK**
0945-1130	Session 1: INTERCONNECTION - A PRIMER ON THE PRINCIPLES AND POLICY IMPERATIVES Objective: To understand the general aspect of Cyber Legislation and the fundamental issues of cyber crime or security facing countries in this information age. The session will cover the basics of the following issues: • SPAM • Hacking • Virus • Pornography • Fraud • Identity Theft • Data Theft • Data Manipulation • Relevance of Traditional Offences • Relevance of "New" Offence

1135-1300	**Session 2: GENERAL ASPECTS OF CYBER LEGISLATION** Objective: To understand how best practice in the fight against crime currently works and its major challenges facing. The session will cover the following issues: • The importance of legislation in the fight against cyber crime • Challenges of the fight against cyber crime • Regional and International legal approaches and Benchmarks • Components of a comprehensive legal frameworks addressing cybercrime • Digital Evidence
1300-1430	**LUNCH BREAK**
1430-1530	**Session 3: A CASE STUDY: Working Group Exercise A** Objective: To ensure that the messages in Sessions 1 and 2 have been understood and that the participants have a capacity to apply the key principles, 2-3 Working Groups will be formed to examine a specially written case study on cybercrime, reasons why there is a need for a cyber legislation, a type of regional or international best practice to consider and how digital evidence can help in solving a problem. The case will reflect key and recurring Pacific themes. Time will not permit an interactive role play WG exercise, however, similar benefits will accrue by each WG (comprising a mix of PIC economies and circumstances) examining strategies for the same fact situation that may be appropriate increasing understanding of the essence of input into developing a cyber legislation. The WGs will critique their own strategies and those of other WGs (when presented to the plenary workshop).
1530-1545	**COFFEE BREAK**
1545-1700	**Session 4: CASE STUDY A – CONTINUATION AND PRESENTATION** Objective: The WG approach to Case Study A will continue and each WG will be required to present its assessment of the situation and its preferred responses, and reasons for their decisions to the plenary workshop. The presentations will be followed by a discussion and a summary of the lessons learnt from the exercise.
	**Day 2 (Thursday, 3.03.2011)**
	**CYBECRIME IN THE PACIFIC**
0900-1030	**Session 5: THE 2010 ASSESSMENT OF CYBER LEGISLATION IN THE PACIFIC ISLANDS** Objective: This session will involve an assessment of the findings, conclusions and recommendations of the Study. Participants will develop and understanding of how various models of cyber legislation works in other regions, and the present situation in the Pacific Islands concerning cyber legislation. In the course of doing this the participants will be able to compare and assess their country's practices and policies

	against others in the Pacific.
1030-1045	**COFFEE BREAK**
1045-1230	**Session 6: COUNTRY CASE STUDIES** Objective: To hear directly from countries in which there have been recent reviews leading to changes in their interconnection policies, their regulatory processes and structures for interconnection and/or regulatory outcomes for interconnection. It is intended that there be 3-4 10-15 minute presentations with provision for questions and discussion. The presentations will be from PNG, Fiji, Samoa, Solomon Islands or Vanuatu. All of these countries have recent developments to report. However, other countries may wish to make a presentation.
1230-1400	**LUNCH BREAK**
1400-1530	**Session 7: WORKING GROUP EXERCISE B** Objective: This session will involve a review by each of the Working Groups of the findings, conclusions and recommendations in the Study Report. The objective will be to fine-tune what needs to be done next and to recommend useful country and regional programs to ensure that all Pacific countries have a great understanding of cybercrime, its challenges and why it is important to develop legislation.
1530-1545	**COFFEE BREAK**
1545-1700	**Session 8: WG EXERCISE B CONTINUES AND PRESENTATIONS** Objective: The WG approach to Exercise B will continue and each WG will be required to present its assessment and views to the plenary workshop. The presentations will be followed by a discussion and a summary of the lessons learnt from the exercise.
	Day 3 (Friday, 4.03.2011)
0930-1045	**Session 9: CYBER LEGISLATION IN OTHER REGIONS** Objective: To understand where the issue of cyber crime and security are heading, and the leadership in this area that is coming from Europe. The factors that relate into the needs of developing cyber legislation will be discussed and assessed, including: - CoE Convention on Cyber Crime - ITU Cybercrime Legislation Toolkit - Commonwealth cybercrime legislation - The UN and its member countries stance on cybercrime - The situation in the Pacific Island countries - Key issues that must be addressed in a cyber legislation

1045-1100	COFFEE BREAK
1100-1230	**Session 10: CYBER LEGISLATION IN THE PACIFIC** Objective: To understand the key findings of the assessment as to what the present situation is in the Pacific and where there are existing legislation either as part of the telecommunication Acts or stand alone, and improvements needed as a result of the working groups, and also as stated in the draft assessment report
1230-1330	LUNCH BREAK
1330-1500	**Session 11: GOING FORWARD** Objective: To jointly discuss the way forward after this workshop! What are the aspirations of countries having understood the issues why cyber legislation is the current trend in the world and its importance to the small island countries.
1500-1515	COFFEE BREAK
1515-1615	**Session 12: WORKSHOP WRAP-UP** Objective: To conclude the workshop agenda and revise key points that has emerged. This session will also provide an opportunity for participants to discuss issues that they consider have not already been sufficiently aired or discussed in the workshop and confirming the way forward and agree on the Assessment report. The expert will write the workshop report and sent out to all participants for their comments however, the outline of the workshop report will also be presented here, discussed and agreed by the participants. **Session 12: WORKSHOP OFFICIAL CLOSE – Vanuatu Government (TBC) and ITU, Gisa Fuatai Purcell**
