

Report for Group Discussion

Group 3, Subject B

Agenda

- Description of the Subject
- Identification of the problem
- Solution for the Identified area of the problem
- Area of the possible cooperation
- Activities back home

Subject title

Problems and remedies for selecting (or prioritizing) solution and applications such as e-learning, e- health to implement in the rural area?

Identified Problem Areas

- BUDGET
- TRAINING
- ELECTRICITY
- STANDARDISATION
- INFRASTRUCTURE
- LOCAL CONDITIONS

Summary of the Problem

Budget	Training	Electricity	Standard ization	Infrastru cture	Local Condition
Finance requirement	Training to content developers and users	Electric system	Standardization of development platform	Transmission network	Use of different languages in different Area
Budget	Lack of technical know how / Skill	Electric to operate terminals	Network support to run applications	Poor development of Infrastructure	Living levels in different areas
	Lack of Human resources	Lack of Electricity		Operators level of present infrastructure	
	Training requirements				

Identified Problem Areas

BUDGET

- Finance requirement
- Budget

Significance	5
Urgency	5
Cost to resolve problem	3
Degree of difficulty	-
Government commitment	4
Scale	5 highest 1 lowest

Identified Problem Areas

TRAINING

- Training to content developers and users
- Lack of technical know how / Skill
- Lack of Human resources
- Training requirements

Significance	4
Urgency	5
Cost to resolve problem	3
Degree of difficulty	4
Government commitment	1

Identified Problem Areas

ELECTRICITY

- Electric System
- Electricity to operate terminals
- Lack of electricity

Significance	5
Urgency	5
Cost to resolve problem	5
Degree of difficulty	3
Government commitment	2

Identified Problem Areas

INFRASTRUCTURE

- Transmission Network
- Poor Development of Infrastructure
- Operators' level

Significance	4
Urgency	4
Cost to resolve problem	5
Degree of difficulty	3
Government commitment	2

Identified Problem Areas

STANDARDIZATION

- Standardization of development platform
- Network Support to run Applications

Significance	4
Urgency	3
Cost to resolve problem	3
Degree of difficulty	4
Government commitment	1

Identified Problem Areas

LOCAL CONDITIONS

- Use of different languages in different Areas
- Living levels in different Areas

Significance	3
Urgency	3
Cost to resolve problem	3
Degree of difficulty	3
Government commitment	1

Identified Problem for Working out Solutions

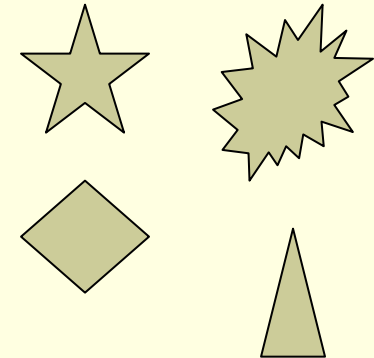

TRAINING FOR CONTENT DEVELOPERS

- Financial support
- Identify trainee needs
- Identify Instructors
- Training Infrastructure
- Training equipment
- Awareness
- Certification

Identified Problem for Working out Solutions

FINANCIAL SUPPORT

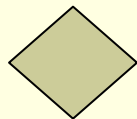

- Government Funding
- Support from other International bodies

Top priority

Government Commitment
required

Difficult

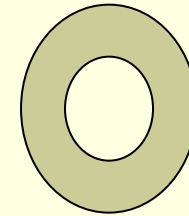

Explore International
Experience

Identified Problem for Working out Solutions

IDENTIFY TRAINEE NEEDS

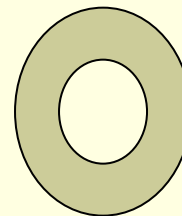

- Identify target persons to be trained
- Analyze training needs (S/K/A levels)
- Identify training target
- Identify students

Top priority

Possible, Data
collection required

Can be done,
without money

Identified Problem for Working out Solutions

IDENTIFY INSTRUCTORS

- Identify Instructors    
- Various communication units, fields of technology for taking specialized experts

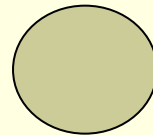

Top priority

Explore International Experience

Possible, Data collection required

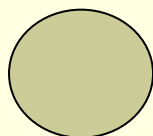

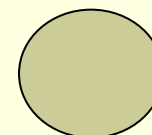

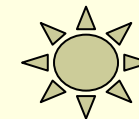

Some money required

Identified Problem for Working out Solutions

TRAINING INFRASTRUCTURE

- Arrange training Infrastructure
- Training center with sufficient digital appliances
- Arrange training infrastructure

Some money
required

Explore International
Experience

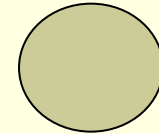

Medium Priority

Identified Problem for Working out Solutions

TRAINING EQUIPMENT

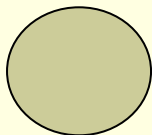

- Analyze training equipment requirement
- Identify Equipment required for the training

Top priority

Possible, Data collection required

Some money required

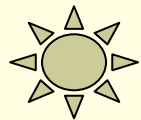

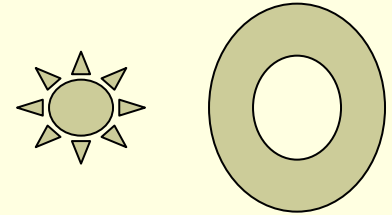

Explore International Experience

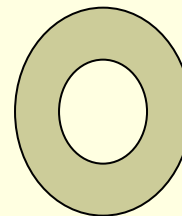

Identified Problem for Working out Solutions

AWARENESS

- Group discussion to develop awareness
- Sensitize the people of rural area on the advantages of the technological training and necessity of Internet Services

Medium Priority

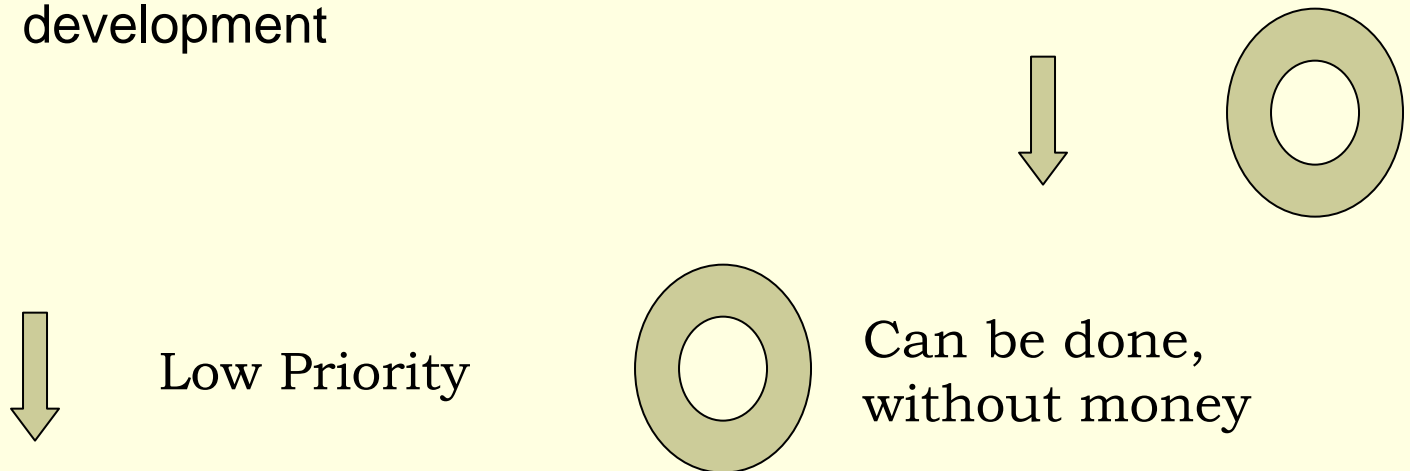

Can be done,
without money

Identified Problem for Working out Solutions

CERTIFICATIONS

- Certification of the persons trained to promote content development

Areas of possible Cooperation

There are number of areas of possible cooperation

- Financial support
- Help in identification of the training instructor
- Help to create training infrastructure
- Help to get training equipments

Activities at Home

Group identified certain activities at home like

- Developing awareness
- Identify training needs
- Setup structure for certification of trained persons
- Initiate process to setup training infrastructure

Thank You
