

## Tentative Programme of ITU/MIC Training on Bridging the Standardization Gap

15 Mon – 19 Fri, December 2008

Structure: Programme consists of two parts – lecture and discussion sessions.

Lecture session allows participants to be updated about recent standardization activities related to NGN.

Discussion session provides opportunity to exchange ideas on challenges/obstacles for standardization activities and to discuss and develop common views on ways forward.

		10:00-12:00	lunch 12:00- 13:30	13:30-15:30	16:00-18:00
