CWTS

IMT-2000 in ITU

- **Radio spectrum, standards & regulations (ITU-R)**
- **Network standards, tariffs, numbering, etc. (ITU-T)**
- **Policy, regulation, assistance & implementation (ITU-D)**
- **Coordination & promotion, handbooks, databases (IMT-2000 Project)**

Latest results (ITU-R)

- Radio interfaces (M.1457): routinely updated
- Spectrum (M.1036): frequency arrangements for WRC-2000 bands in final preparation
- Regulations (M.1579 & M.1581): technical basis global circulation of IMT-2000 terminals
- Vision: statement in final preparation
- WRC-03: draft report finalized
- WP8F: next meeting 25.9-2.10.02 (Geneva)

Latest results (ITU-T)

- Network standards (Q.1741.1 ‘GSM evolved for UTRAN access’: approved, Q.1742.1 ‘ANSI-41 evolved for CDMA2000 access’: final preparation, Q.1741.1 ‘GSM evolved for UTRAN access-R4’: work ongoing)
- Vision (Q.1702): approved
- Beyond IMT-2000 (service & network capability): work ongoing
- SSG: next meeting 4-8.11.02 (Geneva)

Latest results (ITU-D)

- **WTDC-02 (Istanbul):**
 - **RES43: ITU assistance for IMT-2000 implementation**
 - **Question 18/2: migration towards IMT-2000**
 - **Action Plan (Program 2): activities being defined for 2003/04**
- **Regional Seminars: Abidjan & Moscow**
- **Assistance: Algeria, ASETA (2001/02)**
- **SG2: next meeting 2-6.9.02 (Geneva)**

Latest results (IMT-2000 Project)

- 3G Licensing Workshop (September 2001)
- Licensing Database: under study
- Technical support to Sectors & GS
- Report: “Internet for a Mobile Generation”
(4th edition, August 2002)
- Handbook: IMT-2000 Deployment (1st issue 2003)
- Portal: <http://www.itu.int/imt/>

The Ultimate IMT-2000 Gateway on the World Wide Web

IMT-2000

- About IMT-2000
- IMT-2000 for Development
- ITU Activities on IMT-2000
- Operations
- Policy and Regulations
- Services and Applications
- Technology

Special Edition on CD-ROM

The CD-ROM contains a complete set of ITU texts on IMT-2000 and other related topics on personal mobile communications.

Welcome to the IMT-2000 Gateway

Your network for knowledge and expertise on IMT-2000.

Our Gateway aims to be an authoritative one-stop shop on **IMT-2000** for professionals, academics, media and corporate users, both in developed and developing countries.

The IMT-2000 Gateway also allows to exchange information with other users around the world. To make this exchange as fruitful as possible, we encourage you to :
