

Abstract

1.2.2 *ITU-R: IMT-2000 Radio Technology and Spectrum Matters (Colin Langtry, ITU-R)*

This presentation will provide a summary of the results of the Radio Assembly (2-6 June 2003) and the World Radio Conference (9 June - 4 July 2003.) The focus will be on key aspects related to mobile telecommunications. The material covered will include a description of relevant new Recommendations approved, key issues discussed during these events, the outcomes and anticipated future directions and associated work plans.
