

## Curriculum vitae

Tatiana Kurakova holds a Masters degree with excellent diploma in Radio Engineering and Electronics from Moscow Aviation University, Russia. After finishing the Post-Graduated Courses of the same University, she worked as a junior research officer in the Scientific Research Laboratory of the Moscow Aviation University and later for over 10 years in Russian telecommunication private sector.

Currently she is an engineer of the Telecommunication Standardization Bureau (TSB) of the International Telecommunication Union (ITU). She also follows the activities of Special Study Group on IMT-2000 and Beyond, the leading Study Group for mobility and IMT-2000 issues in ITU-T. She was a speaker at several seminars/conferences.
