

Presentation 20: Connected and On the Go: Broadband Goes Wireless

Ms. Lauren Van Wazer, Co-Director of Wireless Broadband Access Task Force, FCC

The presentation will discuss the findings and recommendations of the Federal Communications Commission's Wireless Broadband Access Task Force in their recently issued report, "Connected and On the Go: Broadband Goes Wireless" Topics will include a discussion of wireless technologies and deployment. In addition, the presentation will address the Task Force's specific policy recommendations for license-exempt and licensed spectrum, as well as some discussion of the trend for convergence between wireless networks and non-wireless broadband platforms.
