

4.2.2 Conclusions and closing remarks (John Visser, ITU)

This presentation will be prepared in real time during the seminar. Based on the material presented and the questions and answers, and discussion, on each topic, it aims to be a summary of the key points of the presentations making up the seminar and the items that elicited interaction with the participants. It will therefore serve as a ready reference for participants to use to go back, review and think about particular topics in greater depth.
