

Tariffs and accounting issues under discussion in ITU

Abstract: Tariffs and accounting issues are assigned to SG 3 of ITU-T by WTSA-08 (Johannesburg, October 2008). ITU-T SG 3 is the sole group which deals with tariff and charging issues for international telecommunication services under the umbrella of UN. The presentation briefly introduces the main results achieved by SG 3 during last 2005-2008 study period. The decisions taken at WTSA-08 relevant to the work of SG 3 for the current 2009-2012 study period are given as well as the results of discussions held at the first SG 3 meeting in January 2009.
