

**ITU-D Regional Development Forum for the Americas
NGN and Broadband, Opportunities and Challenges
Santo Domingo (Dominican Republic), 25 (PM) - 27 November 2009**

Author: John Visser, Chairman, TSAG

Session 3: ITU Standardization Activities on NGN and Broadband

ITU Collaboration with Other Organizations

Standards Development Organization in today's environment find that cooperation and collaboration are essential aspects of building a successful suite of standards for a complete functioning system. This presentation describes the approach of the ITU-T to working with other standards bodies and provides some examples in the areas of NGN and broadband.
