

## Yvon Livran Bio:

Yvon Livran has been a project manager for French space and aeronautical companies for ten years (now EADS Astrium and SAFRAN). He joined Thales Communications in 1997 to direct Spectrum Management & Monitoring Contracts for Regulation Agencies worldwide.

He is now coordinating the actions related to frequencies for Thales Communications and is Thales representative at the ITU.

He has been a member of the Telecoms Working Group of the competitiveness cluster Systema@tic Paris-Region for two years. He is manager of the System@tic “Urban planning for RadioCommunications - URC” project.
