

## **WTSA-08 results, implementation and cooperation with ITU-D:**

The World Telecommunication Standardization Assembly held in Johannesburg (South Africa), 21-30 October 2008 is an important milestone for the ITU-T. It was a first in many ways. Important decisions for the future of ITU-T were taken. The presentation will summarize the results that are of interest to both ITU-D and ITU-T and presents the status of their implementation.
