Talk number 2 (session 2)
ITU-T Standards development on NGN and Broadband

Abstract: The presentation will provide at first an overview of some key topics and working directions in ITU-T standardization activity related to NGN (ITU-T NGN-GSI). Mandates and study areas of the two core NGN-GSI Study Groups, SG13 and SG11, in the current ITU-T study period [2009-2012] will be also introduced.
Finally, key elements of ITU-T standardization activity related to Broadband, led by SG15, will be presented.
