

## **The ITU-D Sector Regional Initiatives and Activities for Arab Region**

**Ahmed Elhefnawy, Senior Advisor for Arab States**

*Abstract: Presentation deals with the work of the ITU-D regional initiatives and programs related to NGN and Broadband. The outline of these activities are presented according to the 2011-2014 operational plan of the development sector in order to share the information and encourage regional members and experts to actively recommend projects and actions and participate in meeting the expected results and objectives of the development sector related to NGN and broadband.*
