

ITU-D STUDY GROUPS ACTIVITIES on NGN and Broadband

Riccardo Passerini

Abstract: Presentation deals with the work of the ITU-D SG 1 and SG2 with introduction of questions under study for Study period 2006-2010. Main procedures for the work of SGs are presented in order to encourage participants from countries to take the active role in study of SGs questions. The main deliverables coming from the Studies and Activities of the ITU-D Questions related to NGN and Broadband will be presented.
