11th Global Symposium for Regulators
"Smart Regulation for a Broadband World"
Armenia, Colombia, 23 September 2011

What areas of IPR impact Telecoms Regulators?

- Designs
 - Form factor copies
- Trade Marks
 - Domain name issues
- Patents
 - Patent disputes and trolls
- Copyright
 - Digital piracy

Perspectives on the debate

- "...But, when these networks are abused to provide widespread unauthorized access to these works, that seriously undermines the incentive to invest in the creation of content for this new medium, or for more traditional distribution channels."
- "Just as inadequate copyright protection can reduce incentives to create, excessive copyright protection can stifle creativity, harm competition, halt innovation, block free speech, and gridlock economic growth."
