

Profile

Name: **Bojana Corovic**

Age: 24

Sex: Female

Year of participation: Youth Forum World 2003

Country of origin: Bosnia and Herzegovina

Profession: Student

University: University of Sarajevo

Department: Computer Science

Degree: Bachelor

Ms. Bojana Corovic (Alumni of Youth Forum World 2003) is currently doing her Bachelor degree in final stage and at the same time working in a software firm.

In 2003, Ms. Bojana Corovic's Faculty received an invitation from Ministry of Telecommunications to pre-select students, who would be finally selected by ITU to participate in ITU-Telecom Youth Forum World 2003. What motivated Bojana Corovic to apply was the possibility and opportunity to share thoughts and ideas with young people from 180 countries and to meet and talk with some of the influential people in the world.

The presentation of ITU-Telecom Youth Forum World 2003 Declaration became a non-forgettable memory to Ms. Bojana Corovic. She worked with other young fellows to draft it, based on their discussions, thoughts and ideas. She felt as if there were 300 minds linked together in that Declaration, aiming for a better future. Going back home with sincere friendship of 300 friends, Ms. Bojana Corovic knew that she got at least one friend in every country in the world, with whom she had something in common, the development of ICTs.

The opportunity to participate in the Youth Forum is something that Ms. Bojana Corovic would wish for every young man and woman to experience. *"I met so many young people from different areas of studies. All brought with the same idea – how to make the world a better place to live."*
