

Profile

Name: **Patricia Chávez**

Age: 26

Sex: Female

Year of participation: Youth Forum World 2003

Country of origin: Ecuador

Profession: Engineer in Electronics and Telecommunications

Position: Assistant

Ms. Patricia Chávez (Alumni of Youth Forum World 2003) is currently doing a research programme related to telecommunications at a Polytechnic High School.

Thanks to the Department of External Relations in her university, Ms. Patricia Chávez learnt about ITU-Telecom Youth Forum. The possibility to share ideas with other young people from all over the world motivated her to apply for this event. She got the opportunity to participate in Youth Forum World 2003.

During the Forum, Ms. Patricia Chávez got to know the reality of other countries, not only from the technological view, but also from the cultural, economic and social views. Moreover, along with all the other young people she committed to work for the worldwide development of ICTs as well as for diminishing Digital Divide.

“ITU-Telecom Youth Forum had a great influence on my personal life.”

Said Ms. Patricia Chávez, ***“It changed the way that I view this world. Now I focus more on the projects, which are aiming to diminish the Digital Divide, and get involved in the development of ICTs in my country.”***
