Sex: Male

Year of participation: Youth Forum Asia 2004

Country of origin: Philippines

Profession: Student

University: Ateneo de Manila University

Department: Electronics, Computer and Communications Engineering

Field of study: Electronics and Communications Engineering

Degree: BSc

Mr. Jason Pierre Laruscain (Alumni of Youth Forum Asia 2004) is currently a fresh graduate from the Ateneo de Manila University, Philippines. He happened to be working within the Institute of Electronics Engineers of the Philippines – National Student Chapter (IECEP-NSC) and got informed about ITU-Telecom Youth Forum from one of their meetings with the professional board of officers.

The Youth Forum Asia 2004 satisfied his curiosity about the international events in telecommunication. Mr. Laruscain was keen to know other young people from all over the world. At the same time, being a delegate representing his country was a great honor. He was inspired by that particular activity to start considering any projects that may benefit his country.

Mr. Laruscain believes the ITU-Telecom Youth Forum is very helpful. He said, ***“It would be wonderful if ITU will organize more events for young people around the world to meet and share opinions, projects and future visions in bridging the Digital Divide.”***
