

Profile

Name: **Anna Natalia Mikula**

Age: 25

Sex: Female

Year of participation: Youth Forum World 2003

Country of origin: Poland

Profession: Telecommunication Engineer

Ms. Anna Natalia Mikula (Alumni of Youth Forum World 2003) is currently working in Poland as a telecommunication engineer. She learnt about ITU-Telecom Youth Forum from an announcement in her university, Technical University of Szczecin, when she was studying. And later on, she found more details directly from Internet.

Ms. Anna Natalia Mikula was already very interested in telecommunication issues. The idea of meeting young people from all over the world motivated her to apply.

Her participation in Youth Forum World 2003 gave her an opportunity to communicate with young fellows of different nationalities as well as to exchange their views related to ICTs issues either among themselves or with entrepreneurs, regulators and politicians.

Ms. Anna Natalia Mikula's experience strengthened her self-confidence. ***“Remember that everything is possible and every single person is important in bridging the Digital Divide. Even you can contribute to the development of ICTs.”*** she said.
