Subject: Advance Publication Information for the CubeBel-2 non-GSO BLR satellite network.

- References:
- a) ITU Radio Regulations.
 - b) Regulatory requirements and procedures for satellite networks or systems not subject to the coordination procedure under Section II of Article 9 (Doc. WRS20/30-E28, October 2020).
 - c) Amateur and amateur-satellite services (ITU Handbook, 2014).

Dear Madam/Sir,

In accordance with the provisions of Articles 5, 9, 11, 21, 22, 25 and Appendix 4 of the Radio Regulations, the Administration of the Republic of Belarus is submitting a request for the Advance Publication Information of the CubeBel-2 non-GSO satellite network not subject to coordination. This satellite network will belong to the satellite of Belarusian State University (BSU) using frequencies for amateur-satellite service.

The API file (CubeBel-2.mdb) created with SpaceCap V.9.0.25 contains the information about the CubeBel-2 non-GSO satellite network and the description of its antenna's patterns (Downlink.pdf, Uplink.pdf) and Additional Data Items Required for API (AddData_Cubebel_2.pdf). Database file CubeBel-2.mdb has been validated by Validation software package BR-SIS 9.0.013.
