1 September 2022

**Mr. Mario Maniewicz**

Director  
Radiocommunication Bureau  
International Telecommunication Union  
Place des Nations  
CH-1211 Geneva 20  
Switzerland

Dear Sir,

**SUBMISSION OF NOTICE FOR ADVANCE PUBLICATION OF  
INFORMATION FOR A-SEANSAT-PG1 (NGSO) SATELLITE  
NETWORK**

With reference to the above-mentioned subject, the Administration of Malaysia submits herewith the notice for Advance Publication Information ("API") for the A-SEANSAT-PG1 (NGSO) satellite network in accordance with Article 9 of the ITU Radio Regulations.

2. The examination for completeness and correctness of the above-said notice was validated using BRSIS-Validation (version 9.0.12.5) software and no fatal error was found. However, a total of 45 fatal errors (*invalid value (not in reference table)*) were identified using validation in e-Submission due to the invalid value of operating agency code 055 in Table 12A/12B (data item A3a).

3. As these fatal errors could not be removed, the Administration of Malaysia would like to request the Radiocommunication Bureau ("BR") to consider the submission of the A-SEANSAT-PG1 (NGSO) notice as receivable.

4. This Administration remains at your disposal should the BR requires further clarification.

Thank you.

Yours sincerely,

**SYED KHAIRULAZRIN SYED KHAIRULDIN**

Head

Spectrum Planning and Assignment Division

On behalf of the Chairman
