ITU-T Workshop
"Opportunities and Challenges in Home Networking"

Abstract

Speaker:	Stephen Palm Broadband Communication Group of Broadcom Corporation
Session:	**Session 2: Home Network Architecture and Technologies**
Title of Presentation:	**Transport Technologies in the Home, Current and Future**

A brief overview of the myriad of home networking transport technologies utilizing media such as wireless, coax, powerline, CAT5 and twisted pair.
The technologies likley to dominate future deployments will be highlighted.
