

ITU-T NEXT GENERATION NETWORKS WORKSHOP IN COLLABORATION WITH IETF

CV

Geneva, 1 – 2 May 2005

Neal Seitz

Institute for Telecommunication Sciences (ITS)

ITU-T Co-Chairman

Session 3:

QoS, Control & Signalling capabilities (includes Voice Control)

Neal Seitz (nseitz@its.bldrdoc.gov) is a senior engineer at the Institute for Telecommunication Sciences (ITS), the telecommunications research and engineering arm of the U.S. Department of Commerce's National Telecommunications and Information Administration (NTIA) in Boulder, Colorado. He has held leadership positions in telecommunication performance standards development for over 25 years. He currently Chairs ITU-T Study Group 13 Working Party 4, which develops ITU-T Recommendations on QoS, OAM, and network management for NGN. He has directed and contributed to the development of over two dozen national and international telecommunication performance standards. He holds two U.S. patents for innovations in multi-channel speech compression technology.
