

ITU-T Workshop

“New Horizons for Security Standardization”

Abstract

Geneva, 3 –4 October 2005

Speaker: Russ Housley
Security Area Director for the Internet Engineering Task Force (IETF)

Session: **3: The role of standards in telecommunications and IT security**

Title of Presentation: IETF Security Overview

Russ Housley, one of the IETF Security Area Directors, will provide a summary of the IETF security standard development process. The IETF develops standards for the Internet, and the IETF Security Area develops security standards for the Internet. Russ will provide a brief discussion of the Internet threat environment and an overview of IETF security protocols. Russ will also describe the process for starting a new IETF working group to develop additional security standards.
