Title of Information Security Management for Networks

Presentation:

Ted Humphreys (Chartered Fellow of the BCS - FBCS CITP, CISM) is Director of XiSEC Consultants Ltd a UK company providing Information Security Management consultancy services around the world. He has been an expert in the field of information security and risk management for more than 35 years. During this time he has worked for major international companies (in Europe, North America and Asia), as well organisations such as the European Commission and the OECD.

Ted Humphreys is the international Chair of the ISO group responsible for ISMS standards: the editor of BS 7799 Part 1:1999, ISO/IEC 17799:2000, the 1999 and 2002 editions of BS 7799 Part 2 the ISMS standard and the EA 7/03 the ISMS accreditation guidelines. He is the Founder and Director of the ISMS International User Group and is responsible for the International Register of BS 7799/ISMS Certificates.

In 2002 he was honoured with the Secure Computing Lifetime Achievement Award as the internationally acknowledged author of these BS 7799 based ISMS standards and father of the ISMS certification movement. This international award recognises his noteworthy achievements in shaping and promoting the development and standardisation of information security management BS 7799 best practice standards.
