Portugal Telecom

Session: 4: Stakeholder Perspectives  
Title of Presentation: A Stakeholder perspectives of Network Security

---

**LUÍS JOÃO DE SOUSA CARDOSO** was born in Lisbon, Portugal, in 1948.

He was educated in Electronic Communications Engineering at Lisbon University and joined to CPRM-MARCONI in 1970 to work in the Network Operations area.

He is currently a Senior consultant and is engaged as Quality of Service, Fraud and Network Security Manager within Portugal Telecom/Long Distance Communications.

His previous assignments have included technical and management positions in the areas of planning, quality control and traffic engineering.

He was Company representative to CCITT Study Group 1 during 1984-1988 study period and has been company representative to CCITT Study Group 2 and Quality of Service Development Group since 1985.

Since March 92 he is acting as **Chairman** of Quality of Service Development Group (ITU) and as Coordinator of Fraud Prevention Project.

In addition he has been the Company representative in FIINA (Forum International Irregular Network Access) in which he became member of the Executive Committee during 1995 and was appointed as **President** in October 2001.

He is participating in the ETNO Working Groups on matters as Information Security, Telecommunications Fraud Control and Quality of Service, and since September 2001 he is acting as **Chairman** of the Working Group on "Fraud Control and Network Security"

**He has served for four years in the Portuguese Army as a Management Engineering Officer. He has worked as a Consultant on the Telecommunications Security area for several companies in USA, Europe and Africa and acting as Vice President of the Portuguese National Quality Committee for Information Technology. He is member of the Institute of Electrical and Electronics Engineers, Inc. and of Computer Society. Since June of 1996 he is an active member of the New York Academy of Sciences.**
