

Panelist - Speaker

Mr. Eric Wiatrowski
France Telecom – Enterprise Communication Services
Chief Security Officer

Biography

Mr. Eric Wiatrowski
Chief Security Officer of France Telecom - ECS
Graduated Engineer in Computer Sciences, Supelec
PhD in Signal Processing, University of Paris-Orsay
Information Security Management Systems Lead Auditor

Eric Wiatrowski has been working in the field of IT for more than 20 years, mainly within France Telecom Divisions and Subsidiaries.

As a protocol expert, he took part in the development of a number of ITU Recommendations and ISO Standards. He was appointed as a Special Rapporteur on Numbering Plans.

As a Director in France Telecom, he managed the development of new Value Added Services based on the emerging Internet technologies in the area of Messaging, Dynamic Web Hosting, and Security.

Since 2001, he is in charge of Information Security within the Division of France Telecom responsible for the development of Communication Services (VPN, VoIP, Hosting...) to businesses around the world from SMBs to large multinationals.
