ITU-T Workshop
Video and Image Coding and Applications (VICA)

BIO

Geneva, 22-23 July 2005

Istvan Sebestyen
ITU-T SG16 VICE CHAIR;
SIEMENS, GERMANY

Chair and Speaker Session:	4: Image Coding
Title of Presentation:	The first Joint ITU/ISO Image Compression Standards

Istvan Sebestyen is currently Director of Multimedia and Applications Standards at Siemens Communications in Munich, Germany. He has been with Siemens in Munich since 1985. He has 20 years of telecommunication standardization experience in CCITT, ITU-T, ISO/IEC, ETSI and DIN. He has been ITU-T Rapporteur on still picture coding (JPEG, JBIG) between 1987-2000. He has been Director of the International Multimedia Telecommunication Consortium (IMTC) since 1999, and its President since 2001.

He has studied and received his Diploma in Electrical Engineering at Technical University of Budapest (1970), and got his PhD in Electrical Engineering also at the Technical University of Budapest (1974). He has been teaching at the Technical University of Graz in Austria and at the University of Klagenfurt also in Austria. He has authored about 100 science papers, two books, and got about 15 patents awarded.
