

Mr Gökhan Tok

Gökhan Tok is a Senior Policy Manager in Access Partnership and Vice-Rapporteur for Question 3/1 on The use of telecommunications/ICTs for disaster risk reduction and management.

Prior to joining Access Partnership, Gökhan worked with the Turkish ICT Regulator, Information and Communication Technologies Authority for nine years. There, he specialised on connectivity and digital transformation issues. He also led 5G preparations of Turkey's 5G and Beyond RoadMap and established the first 5G testbed in Turkey.

He holds an MSc in Governance of Media and Communications from London School of Economics and Political Science; an MA on Human Rights from Ankara University, and a BA degree on Political Science and International Relations from Boğaziçi University in İstanbul.
