

Melissa Michelle Muñoz Suro

Melissa Muñoz is the Director of Innovation at OGTIC and the Coordinator of the Innovation Cabinet of the Dominican Republic, where she led the development of the National Artificial Intelligence Strategy, the first AI Strategy in Central America and the Caribbean. With a Master's degree in Govtech and a background in Political Science, Public Administration, and Diplomacy, she has focused her career on the intersection of governance and technology. Additionally, Muñoz leads the implementation of the National Innovation Policy, steering over 22 innovative projects towards a smarter, interconnected future. She was also part of the first Cohort of the International Telecommunications Union's "Generation Connect" America's Youth Envoys.
