

Hani Eskandar

Head – Digital Services Division
Telecommunication Development Bureau
International Telecommunication Union (ITU)
Geneva - Switzerland

Mr. Eskandar is the Head of the Digital Services Division at the Digital Society Division of the Telecommunication Development Bureau of ITU. Mr. Eskandar is currently involved in providing assistance to several developing countries by advising on digital applications and services strategies and policies, assisting in implementing technical co-operation projects in areas of digital governance, health, agriculture, and education. Mr Eskandar is currently leading major projects on digital government, open source for public services, digital health, digital agriculture, and smart villages in collaboration with several governments, UN agencies and other stakeholders. He has led the development of several guidelines and best practices reports on digital applications particularly on digital Health, digital Agriculture and digital Government.

Mr. Eskandar has more than 30 years of extensive on-the-ground experience in the field of ICT for Development where he, through working with the International Federation of Red Cross and Red Crescent in Switzerland and, UNDP, Ministry of ICT and other NGOs in Egypt, was involved in several development projects in the fields of Health, Education, Illiteracy Eradication, Community Development, SME development and Micro Credits.

Mr. Eskandar has an educational background in Electrical Engineering (Telecommunications) and has completed an MBA from McGill University, Canada and a Master's Degree in Social and Economic Development Studies from University of Paris I, France.
