Dmitry Kurbatov

Dmitry Kurbatov is a recognized expert in the field of telecom 4G/5G cybersecurity, co-founding SecurityGen with a mission to elevate the security of telecommunications networks. At SecurityGen, Dmitry has led the development of innovative security tools, namely the Artificial Cybersecurity Expert and the Telecom Security Guard, which are at the forefront of detecting and neutralizing cyber threats.

Since 2012, Dmitry and his team have dedicated themselves to collaborating with mobile operators, providing strategic guidance for securing emerging technologies, combating fraud, and bolstering network cyber-resilience, with a particular focus on 4G and 5G technologies. This effort has been crucial in the early adoption and secure implementation of these advanced networks. The ongoing commitment to innovation and security continues to make a significant impact on the telecommunications industry.
