

Holger Zwingmann

Dipl. Inform.

Holger Zwingmann currently leads the Cyber competence cluster of Accenture's Industry X Connectivity practice. He has gained experience as an expert, team and project leader in numerous projects with renowned clients, primarily in the ICT and security authority environment.

Throughout his career, he has worked at national and international level for more than two decades. During this time, he has also set up and managed several business units where he was responsible for organisational and personnel matters as well as business development and project delivery.

Holger is a member of numerous technical committees and working groups of various SDOs, including ETSI, 3GPP and the O-RAN Alliance. He has considerable experience in chairing and vice-chairing, and is the author (rapporteur) of various technical specifications and reports, often related to IT security and telecommunications.

He has also developed considerable expertise in research and development, with a focus on IT security and telecommunications, and the preparation of related studies and technical concepts. He also has a long background in ICT procurement support for a number of security agencies.

Holger holds a degree in Computer Science and is a certified Project Management Professional (PMP)[®] and Certified Ethical Hacker (CEH).
