

Alvaro Casallas Hernández

Advisor, National Spectrum Agency - Colombia

Alvaro Casallas is an advisor to the general management at the National Spectrum Agency-ANE in Colombia. In his role, he is responsible for managing the ANE's initiatives to promote the deployment of antennas in Colombia and guides strategies for the surveillance and control of the radio spectrum. Since 2016, he has led the issuance of regulatory standards in Colombia on the assessment and compliance of human RF EMF exposure limits. He previously worked at the Ministry of Information and Communications Technologies where he participated in 2005 in the regulations for the assessment of RF EMF.
