

Jack Rowley

Dr Jack Rowley works in Public Policy for the GSMA where he is Senior Director, Research & Sustainability. He is responsible for technical and policy activities related to the safety of mobile communications. In this role, he manages relationships with major stakeholders such as the WHO and the ITU, develops technical advice for members and coordinates GSMA strategy related to EMF. Jack has been a member of national and international working groups, given expert evidence in base station planning hearings, made submissions to government panels and published extensively on mobile communications safety and environmental issues. He has more than 30-years of experience in the telecommunications industry and joined the GSMA in 2000. Previously, he worked for Telstra (Australia), primarily in the Research Laboratories. He holds a B. Eng. degree with first class honours from the University of Limerick (Ireland) and a Ph.D. from the RMIT University (Australia). He is a Senior Member of the IEEE and a member of the Bioelectromagnetics Society.
