

Jafar Keshvari

Dr Keshvari is currently Chairman of IEEE/ICES. He is also adjunct professor of Bio-electromagnetics/Biomedical Engineering at Aalto University, Helsinki-Finland. Besides his academic background, he has extensive regulatory and standards work experience at different multinational companies, like Nokia, Microsoft, Huawei and Intel corporations. Dr Keshvari is also involved for 20+ years in major international EMF standards development activities at CELELEC, IEC, IEEE and ITU. His main mission has been international harmonization of not only EMF exposure limits, but also compliance assessment standards methods for wireless communication technologies products.
