

Radiocommunication Bureau (BR)

Corrigendum 1 to
Addendum 1 of
Administrative Circular
CA/251

11 February 2021

To Administrations of Member States of the ITU and Radiocommunication Sector Members

Subject: **Preparation of the draft CPM Report to WRC-23**

During the CPM-23 Steering Committee held on 3 September 2020, it was agreed to consider by correspondence any possible further amendments to the list of working parties contributing to the ITU-R preparatory work for WRC-23, which may be identified during the September to November 2020 blocks of ITU-R meetings.

Following these meetings, the CPM-23 Chairman was informed by the Chairmen of Study Groups 4, 5 and 7 of requested changes to the list of contributing working parties as follows:

- Regarding WRC-23 agenda item 1.15, to add WP 7C as a contributing group recognizing that the frequency band 12.75-13.25 GHz is immediately adjacent to the frequency band 13.25-13.75 GHz which is allocated on a primary basis to the Earth exploration-satellite service (active) for active sensing of the Earth.
- Regarding WRC-23 agenda item 9.1, topic a), to add:
 - WP 4A as a contributing group due to overlaps between the frequency ranges to be considered and existing frequency allocations on a primary basis to the fixed-satellite and/or broadcasting-satellite services;
 - WP 5D as a contributing group given that some of the frequency bands under consideration are overlapping with frequency bands identified for International Mobile Telecommunications (IMT) in the Radio Regulations;
 - WP 4C as a contributing group due to overlaps between the frequency ranges to be considered and existing frequency allocations on a primary basis to the mobile-satellite and/or radionavigation-satellite services.

As a result of the consultation and agreement by the Members of the CPM-23 Steering Committee and Management Team, please find in the Annex to this Corrigendum 1 to Addendum 1 of Administrative Circular CA/251, the updated table on the allocation of ITU-R preparatory work for WRC-23. The proposed detailed structure for the draft CPM Report to WRC-23 has been revised accordingly and can be found at the following ITU web address: www.itu.int/oth/ROA0A000014.

In addition, the CPM-23 Chairman was informed by the Chairman of Study Group (SG) 4 of the desire to postpone the deadline of 15 June 2021, the date by which service/application characteristics and parameters are to be sent by the contributing groups to the responsible groups (see [CA/251](#), Annex 4), so that the SG 4 block of meetings could be moved from May/June to July 2021, thus resolving an overlap of some of the planned meetings. The schedule of the ITU-R meetings in 2021 was reviewed and conditionally revised at the Chairmen and Vice-Chairmen (CVC) meeting held on 20 January 2021. Taking into account the changes proposed to the schedule (see: <https://www.itu.int/en/events/Pages/Calendar-Events.aspx?sector=ITU-R>), the Members of the CPM-23 Steering Committee and Management Team agreed to postpone the above-mentioned deadline to **23 July 2021**.

It is worth noting that the deadline of 15 May 2021 for reporting to Task Group 6/1 the results of studies by the contributing working parties under WRC-23 agenda item 1.5 remains unchanged (see CA/251, Annex 9).

Finally, taking into account the recent exchange of information between WP 4C and WP 5D, the CPM-23 Chairman was informed of the need to further update Table 1 of Annex 4 to Administrative Circular CA/251, which shows the WRC-23 agenda items having overlapping frequency bands, in order to add other frequency bands under consideration in the preparatory studies for agenda items 1.4 and 1.18, as follows:

Table 1

1.2 (IMT) WP 5D	1.4 (HIBS) WP 5D	1.16 (non-GSO FSS ESIMs) WP 4A	1.17 (ISL) WP 4A	1.18 (narrowband MSS) WP 4C
	2 010-2 025 MHz (Regions 1 & 3)			2 010-2 025 MHz (Region 1)
3 300-3 400 MHz (Regions 1 & 2)				3 300-3 315 MHz 3 385-3 400 MHz (Region 2)

It includes entries for the identification of the ITU-R “responsible groups” and “contributing groups”^{*} for the WRC-23 agenda items.

NOTE 1 – The ITU-R Working Parties indicated in the following Table have been identified based on the ITU-R Study Group structure contained in Document [CPM23-1/1](#).

NOTE 2 – The responsible groups are invited to communicate on a regular basis the progress and results of their studies to the contributing groups.
