

## Radiocommunication Bureau (BR)

Administrative Circular  
CACE/906

21 June 2019

**To Administrations of Member States of the ITU, Radiocommunication Sector Members,  
ITU-R Associates participating in the work of Radiocommunication Study Group 1  
and ITU Academia**

**Subject: Radiocommunication Study Group 1 (Spectrum management)**

- **Proposed adoption of 1 draft new ITU-R Recommendation and 3 draft revised ITU-R Recommendations and their simultaneous approval by correspondence in accordance with § A2.6.2.4 of Resolution ITU-R 1-7 (Procedure for the simultaneous adoption and approval by correspondence)**

At the meeting of Radiocommunication Study Group 1, held from 6 to 7 June 2019, the Study Group decided to seek adoption of 1 draft new ITU-R Recommendation and 3 draft revised ITU-R Recommendations by correspondence (§ A2.6.2 of Resolution ITU-R 1-7) and further decided to apply the procedure for simultaneous adoption and approval by correspondence (PSAA, § A2.6.2.4 of Resolution ITU-R 1-7). The titles and summaries of the draft Recommendations are given in the Annex to this letter. Any Member State who objects to the adoption of a draft Recommendation is requested to inform the Director and the Chairman of the Study Group of the reasons for the objection.

The consideration period shall extend for 2 months ending on 21 August 2019. If within this period no objections are received from Member States, the draft Recommendations shall be considered to be adopted by Study Group 1. Furthermore, since the PSAA procedure has been followed, the draft Recommendations shall also be considered as approved.

After the above-mentioned deadline, the results of the above procedures will be announced in an Administrative Circular and the approved Recommendations will be published as soon as practicable (see <http://www.itu.int/pub/R-REC>).

Any ITU member organization aware of a patent held by itself or others which may fully or partly cover elements of the draft Recommendations mentioned in this letter is requested to disclose such information to the Secretariat as soon as possible. The Common Patent Policy for ITU-T/ITU-R/ISO/IEC is available at <http://www.itu.int/en/ITU-T/ipr/Pages/policy.aspx>.

Mario Maniewicz

Director

**Annex:** Titles and summaries of the draft Recommendations

**Documents:** Documents [1/206\(Rev.1\)](#), [1/208\(Rev.1\)](#), [1/212\(Rev.1\)](#), [1/216\(Rev.1\)](#)

These documents are available in electronic format at: <https://www.itu.int/md/R15-SG01-C/en>

**Distribution:**

- Administrations of Member States of the ITU and Radiocommunication Sector Members participating in the work of Radiocommunication Study Group 1
- ITU-R Associates participating in the work of Radiocommunication Study Group 1
- ITU Academia
- Chairmen and Vice-Chairmen of Radiocommunication Study Groups
- Chairman and Vice-Chairmen of the Conference Preparatory Meeting
- Members of the Radio Regulations Board
- Secretary-General of the ITU, Director of the Telecommunication Standardization Bureau,  
Director of the Telecommunication Development Bureau

## Annex

### **Titles and summaries of the draft Recommendations**

Draft new Recommendation ITU-R SM.[WPT MOBILE]

Doc. 1/216(Rev.1)

#### **Guidance on frequency ranges for operation of non-beam wireless power transmission systems for mobile and portable devices**

This Recommendation provides guidelines for the use of frequency ranges for the operation of non-beam wireless power transmission (WPT) for charging mobile and portable devices.

Draft revision of Recommendation ITU-R SM.1268-4

Doc. 1/206(Rev.1)

#### **Method of measuring the maximum frequency deviation of FM broadcast emissions at monitoring stations**

This proposed revision of Recommendation ITU-R SM.1268-4 further specifies the methods to assess reflections at the measurement location. This was necessary to align results achieved with newer digital reflection meters with results from analogue ones.

The proposed changes affect Annex 2 only.

Draft revision of Recommendation ITU-R SM.1054-0

Doc. 1/208(Rev.1)

#### **Monitoring of radio emissions from spacecraft at monitoring stations**

The purpose of this revision is to update the Recommendation with the new Report ITU-R SM.2453-0 on satellite monitoring cooperation and to make the document up to date.

## **DVB-T coverage measurements and verification of planning criteria**

This draft revision of the Recommendation includes the following changes:

- Clarification of the existing measurement method for fixed reception;
  - Introduction of two alternative measurement methods for fixed reception to be used under certain conditions;
  - Inclusion of DVB-T2;
  - Alignment with the new format of ITU-R Recommendations.
-
