Administrative Circular
CAR/271

14 May 2009

To Administrations of Member States of ITU

Subject: Radiocommunication Study Group 4
– **Proposed approval of 1 draft new Recommendation**

At the meeting of ITU-R Study Group 4 (Satellite services) held on 16 and 17 October 2008, the Study Group decided to seek adoption of 2 draft new Recommendations by correspondence, according to § 10.2.3 of Resolution ITU-R 1-5.

As stated in Circular Letter 4/LCCE/97, dated 18 December 2008, the consultation period for the Recommendations ended on 18 February 2009.

Draft new Recommendation ITU-R M.[1317_NEW] has now been adopted by Study Group 4 and the approval procedure of Resolution ITU-R 1-5 § 10.4.5 is to be applied. The title and summary of the Recommendation are given in Annex 1.

Draft new Recommendation ITU-R S.[CSREF-PATT] was not adopted and will be returned to Working Party 4A for further discussion.

Having regard to the provisions of § 10.4.5.2 of Resolution ITU-R 1-5, you are requested to inform the Secretariat (brsgd@itu.int) by 14 August 2009 whether your Administration approves or does not approve the draft Recommendation.

A Member State who indicates that the draft Recommendation should not be approved is requested to advise the Secretariat of the reason and to indicate possible changes in order to facilitate further consideration by the Study Group during the study period (§ 10.4.5.5 of Resolution ITU-R 1-5).

After the above-mentioned deadline, the results of this consultation will be notified in an Administrative Circular and arrangements made for the approved Recommendation to be published in accordance with § 10.4.7 of Resolution ITU-R 1-5.

Any ITU member organization aware of a patent held by itself or others which may fully or partly cover elements of the draft Recommendation(s) mentioned in this letter is requested to disclose such information to the Secretariat as soon as possible. The Common Patent Policy for ITU-T/ITU-R/ISO/IEC is available at <http://www.itu.int/ITU-T/dbase/patent/patent-policy.html>.

Valery Timofeev
Director, Radiocommunication Bureau

Annex: Title and summary of the adopted draft Recommendation

- ITU-R Associates participating in the work of Radiocommunication Study Group 4

Annex 1

Title and summary of the draft Recommendation adopted by Radiocommunication Study Group 4

Draft new Recommendation ITU-R M.[1317_NEW]

Doc. 4/BL/2

Description of systems and networks in the radionavigation-satellite service (space-to-Earth and space-to-space) and technical characteristics of transmitting space stations operating in the bands 1 164-1 215 MHz, 1 215-1 300 MHz, and 1 559-1 610 MHz

The information on orbital parameters, navigation signals and technical characteristics of systems and networks in the radionavigation-satellite service (RNSS) (space-to-Earth, space-to-space) operating in the bands 1 164-1 215 MHz, 1 215-1 300 MHz, and 1 559-1 610 MHz are presented in this proposed draft new Recommendation. This information is intended for use in the assessment of the interference impact between systems and networks in the RNSS and with other services and systems.

This draft new Recommendation contains cross-references with other proposed draft new Recommendations related to RNSS systems.

This draft new Recommendation is intended to replace existing Recommendation ITU-R M.1317. Upon approval of this draft new Recommendation, Recommendation ITU-R M.1317 should be suppressed.
