Subject: Very late submission by the administration of the Russian Federation to the RRB

Dear Mr. Rancy,

The Administration of Germany has considerable serious concerns regarding the very late contribution to the RRB, sent on the 13th of July by the Russian Federation, requesting an extension of the regulatory time-limit to bring into use the frequency assignments of the **ENSAT-23E satellite network**.

Due to the very late submission (19 days after the deadline to submissions!!), the German administration is not in the position to comment on their request prior to the discussions at the RRB, being held this week.

Therefore, the German administration requests the Director of the BR to inform the RRB of the extreme concern expressed by the Administration of Germany, and of their
